

Code of Conduct

Annual Report

2017 June 22

The story behind The Code of Conduct

The City of Calgary recognizes that having a Code of Conduct, founded in our values, is key to our success. A strong Code of Conduct benefits everyone; it fosters a safe, healthy and ethical workplace; protects our collective reputation and; strengthens our commitment to making Calgary a great place to make a living and a great place to make a life.

As a result of the 2015 Ethics Audit, completed by KPMG, The City focused on refreshing our Code of Conduct to align it with best practices. Our Code of Conduct is now values based, allowing employees to engage the corporate values as a framework for decision-making, rather than listing a complex set of detailed rules. The refreshed Code of Conduct is now framed in four (4) behaviour based themes which articulate, but do not replace, the nine (9) underlying policies.

Our updated Code of Conduct was fully launched to the organization in 2017 March promoted by a comprehensive awareness campaign, supporting both the Leadership Strategic Plan (C2014-0703) and Council's Imperatives (C2014-0703).

This report has been designed to provide the Audit Committee (Council) with an update on the status of the KPMG Ethics Audit recommendations while also providing assurance of sound practices within our ethics program. Therefore, this report is organized using the following:

1. Code of Conduct Supporting Policies

2. City of Calgary Code of Conduct Progress

- a. High level **recent accomplishments** in 2016-2017.
- b. Headline performance measures to show **how we are doing**. Where available, baseline information for the measures show history (represented by a solid red line) and forecast (indicated by a dotted red line). Anticipated changes are represented by a solid gray arrow, to depict where we can “turn the curve” on our performance.
- c. **The story behind the numbers** describes the conditions, causes and forces at work that helps explain the current and expected performance.
- d. **What we propose to do** highlights initiatives planned or currently underway to advance success in the focus area.

Ongoing performance accountability is essential to the success of the Code of Conduct. A sustainment strategy will be developed to integrate these initiatives in the work we do and to continue to measure and report on our performance.

The City of Calgary's values based Code of Conduct outlines expectations and standards of behaviour to help employees remain focused on delivering our common purpose; making life better every day.

Recent accomplishments

- Code of Conduct project team integrated the 2015 KPMG Ethics Audit recommendations with best practices to design and develop the 'refreshed Code of Conduct'. The refreshed Code of Conduct:
 - Is values driven and is underpinned by our behaviour-based cultural imperatives (character, competence, collaboration, commitment and individual responsibility, collective accountability).
 - Provides direction, tools, resources and principles to guide behaviour and decision-making; including, flow charts and scenario-based examples to support employees and leaders understanding of the code.
- Refreshed Code of Conduct was launched on calgary.ca in 2017 March as a fully accessible micro-site, paired with an accessible PDF for download . The microsite received 12,048 views in during the period of 2017 March- 2017 May.

How we are doing?

The story behind the numbers

In 2015 a Code of Conduct project team was established in response to the KPMG Ethics Audit. Integrating best practices and the Ethics Audit recommendations, the project team designed the Code of Conduct using aspirational, descriptive and proscriptive content to support its nine (9) standing policies. The refreshed Code of Conduct was introduced to City leaders, managers and supervisors in 2017 February, followed by a full launch to all employees in 2017 March.

Starting in 2016 September, the Corporate Employee Survey (CES) was expanded to include three questions directly related to the Code of Conduct. The results of the CES indicated an opportunity to: enhance leadership accountability through ongoing discussions of ethics at all levels of the organization and; provide education on the tools and resources to support employees facing ethical dilemmas. Since the annual CES was administered six months prior to the Code of Conduct implementation, these results can only serve as a status quo baseline. Given the 2017 March Code of Conduct launch, the results are expected to increase on the 2017 September CES. campaign and education as the annual CES was administers six months prior to the Code of Conduct launch.

What we propose to do:

- Continue to apply the Results Based Accountability™ approach to evaluate the progress on the Code of Conduct.
- Continue to actively provide awareness of the Code of Conduct and embed its principles within existing and new programs, processes and initiatives.
- Continue to progress and complete KPMG Ethics Audit recommendations.
- Implement a comprehensive, sustainable and mandatory Code of Conduct training program for all employees
