Office of the City Clerk

I am writing in support of my neighbour's rezoning application for a change in DC Direct Control to accommodate Retail and Consumer Service and Office. The house at 2219 2 Street SW has had office space on the main floor since I have been a neighbour in 1998. I have never had any issues with the commercial use of the building. I was actually surprised they were required to rezone to allow the present tenant to carry on business there as the house has been DC zoned all along.

The current tenant appears to have made several cosmetic improvements to the interior and I have noticed very little traffic into or out of the building. I thought I had actually written a note of support earlier in 2017. We are currently in New Zealand and only received this latest notice of public hearing after the scheduled 20 Feb hearing date. However I heard from the owner that the hearing has been rescheduled to March and comments are being accepted again.
