

Seniors Age-Friendly Strategy

Local Priority Issue Areas

The local priority issues areas were determined through an extensive public and stakeholder engagement process. The priority issue areas are:

1. Commitment to effective implementation of the strategy;
2. Transportation;
3. Housing;
4. Participation and wellbeing;
5. Elder abuse prevention and response;
6. Employment and financial security;
7. Access to information; and
8. In-home support and safety.

The Seniors Age-Friendly Strategy goals were aligned to these priority issue areas according to initial direction provided by subject matter experts in priority issue working groups, and subsequently revised and approved by the Steering Committee.
