**Subject:** [EXT] LAND USE REDSIGNATION - VARISTY LOC2018-0137, BYLAW 11D2019

Hello,

We received a confusing notice re a public hearing that will be held on Monday, Jan 14, 2019 at 9:30 am.

On the land use redesignation sheet it indicates that the specified land is to be redesignated **from DC Direct Control District to DC Direct Control District** to accommodate commercial development - in other words no change is indicated.

This must be an error, as there is no change indicated.

Please send a revised and corrected sheet and you may want to reschedule the public hearing, given the delay in getting the correct information to residents.

If I am mis-reading what was sent, please explain what change is proposed.

Generally speaking, I don't have a problem with commercial development in the market mall block, as long as the height of the buildings does not exceed 2 stories.

Look forward to getting clear information from the city in regard to what change is proposed.

Thanks,  
Jen Avaz
