Subject: [EXT] Office of the City Clerk - RE: Bylaw 38D2019

To whom it may concern;

In regards to the letter I received about BYLAW 38D2019, as a resident in one of the buildings that are being proposed for land use redesignation, I would like to voice my opposition on the matter.

When I purchased, it was made very clear that this was a community that highly valued the wellness and safety of all the residents within the community, and I feel that this is very much goes against everything that I was told. Although its now legal, I still feel that having a cannabis store invites the opportunity for criminal activities. The complex states that this is supposed to be an exclusive, resort style living and I do not feel that this type of business fits within those parameters.

On another note, part of our complex bylaws states that we cannot smoke in public spaces in the buildings (i.e.. the balconies), so to have a store that literally promotes smoking is completely counterproductive.

Thank you for your time and consideration.

To Whom it may concern:

I as an owner in Westman Village in the community of Mahogany am completely against the rezoning to allow Cannabis Store//counselling in our community. The proposed store is on the ground level of a **residential** building, not a commercial strip mall. In order to gain access to our homes we will need to walk past the proposed shop forcing us to expose our children to this whether as parents we want to or not.

I am unsure how the request even got this far as there is a proposed Day Care only a couple hundred meters from the space the applicant is looking at. As well the amenity centre in which family based activity is based is even closer than that.

Even though Cannabis has been legalized in Canada there still is the element of questionable activity associated with it, so exposing families to this unnecessarily is not acceptable. Allow the stores in need be in full commercial retail areas and protect the residential areas.

Mahogany has been touted as a real family based community, please allow us to keep it that way.
