Feedback:

The Cinema sounds like a great idea. It would attract more costumers to the mall and would make going to see a movie much easier for the people living in Varsity and Montgomery. As for the supermarket, I recommend a Walmart or a Superstore. Many people need to make long drives, spend money on gas when they could be spending on groceries, and take a huge portion out of their day going to the superstore. Also, Market Mall is a five minute walk from me. Everytime I need to go to the mall, I walk because I care about the environment and don't want to pollute the airs unnessecarily. If there was a cinema and supermarket at the mall, the people living in Varsity and Montgomery would be able to walk and pollute the airs less than we already do. In addition, building those businesses would ensure job creation for the people living here. In conclusion, I very much endorse the idea of having these new buildings built.
