## Summary of Rocky View County Concerns

1. Collaboration: The County cites a lack of collaboration undertaken by The City to resolve cross-boundary issues
2. Interface Policies: The County requests that proposed interface policies provide explicit commitment to collaboration at future planning and development stages.
3. Transportation: The County indicated insufficient time to review information, and potential negative impacts on County roads.
4. Stormwater Management: The County requests updated information be provided to allow for full assessment of expected stormwater impacts on lands within its jurisdiction.

## Administration Response to Rocky View County Concerns

1. Interface Policies: Council amended these policies on 2019 July 29, but The County concerns remain.
2. Transportation: The County will be circulated all land use and outline plan applications along with supporting technical studies
3. Stormwater Management: The County will be circulated all land use and outline plan applications along with supporting technical studies
4. Collaboration: The City of Calgary remains committed to regional collaboration and coordination of planning for land use, infrastructure, and service provision through all stages of development with Rocky View County
