

building on our energy: an update to the 10-year economic strategy for Calgary

Calgary Economic Development Q4 2016 Core Indicator Update

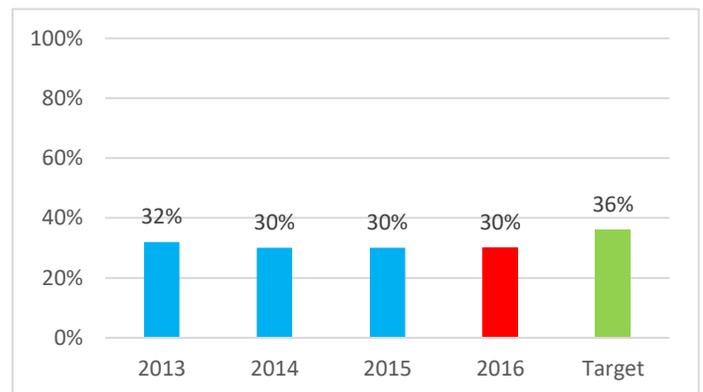

The following population-level core indicators help answer the RBA question “How are the Citizens of Calgary better off?” Activities in the Economic Strategy contribute to changes in these measures over time.

1. Sense of Community

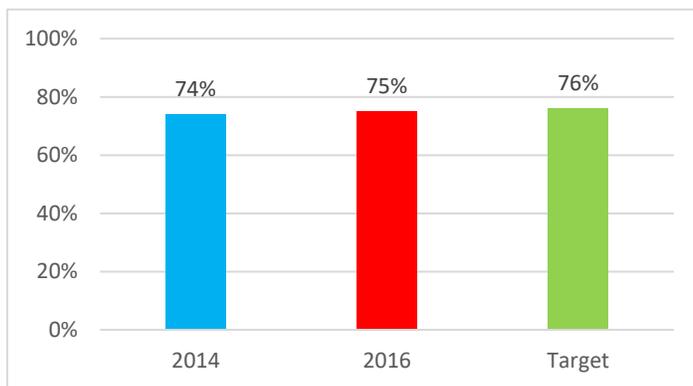

Percentage of Calgarians who are satisfied with the overall level and quality of City services and programs

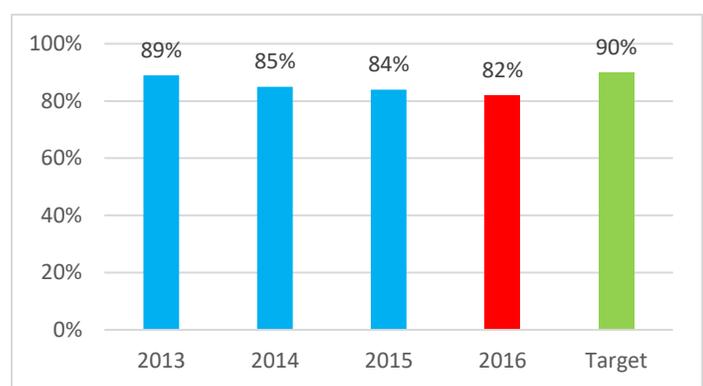

Percentage of Calgarians regularly involved in neighbourhood and community events

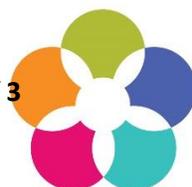

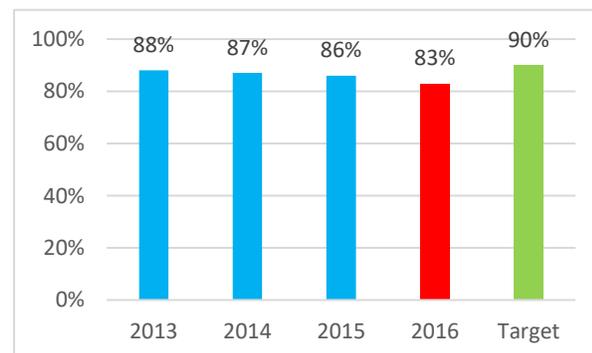

Percentage of Canadians in national perceptions research ranking overall perceptions of Calgary as favourable

Percentage of Calgarians agreeing that Calgary is a great place to make a life

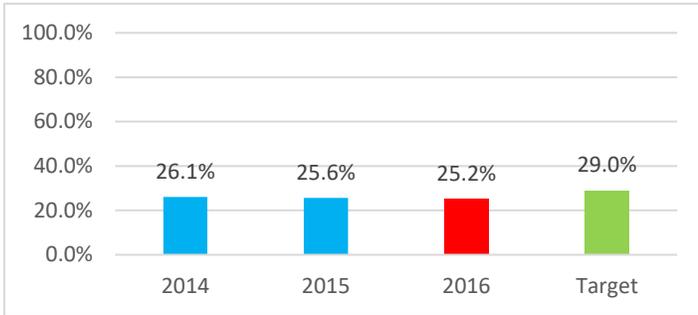

Percentage of Calgarians agreeing that overall quality of life is good

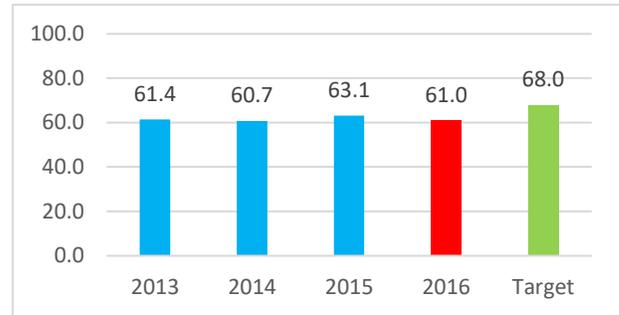

2. Sustainable Development and Purposeful Diversification

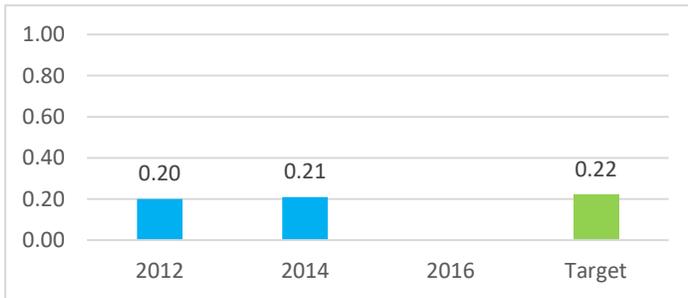

Taxable non-residential assessment share of total assessment

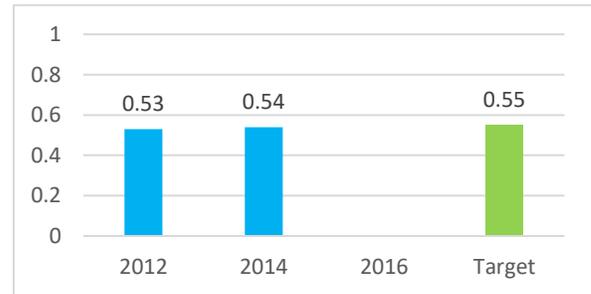

Non-oil and gas diversification score (out of 100)

Residential Diversity Index (out of 1)

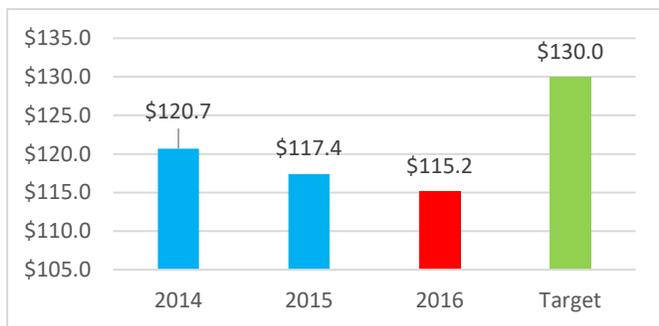

Land Use Diversity Index (out of 1)

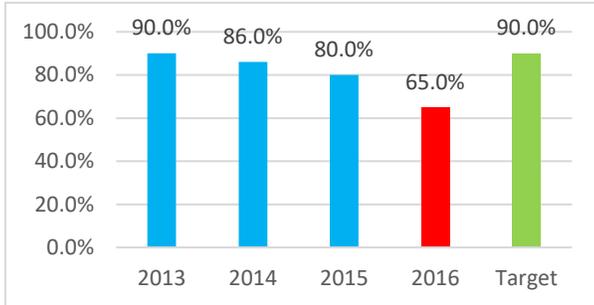

Planning and Development will not be calculating Residential nor Land Use Diversity Indices on an annual basis.

Overall gross domestic product (GDP) for all industries expressed in billions chained \$2007

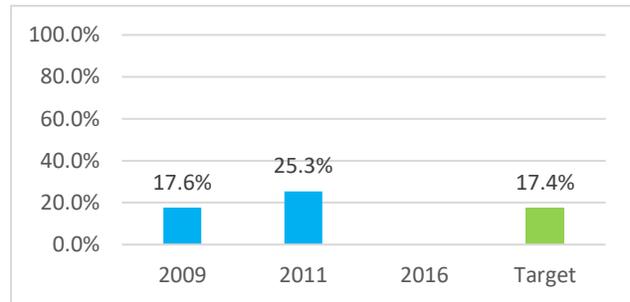

3. Shared Prosperity

Percentage Calgarians agreeing Calgary is a great place to make a living

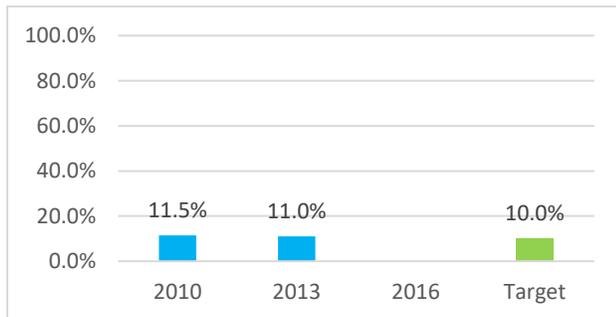

Percentage Calgary households spending more than they can afford on housing (32% of gross family income)

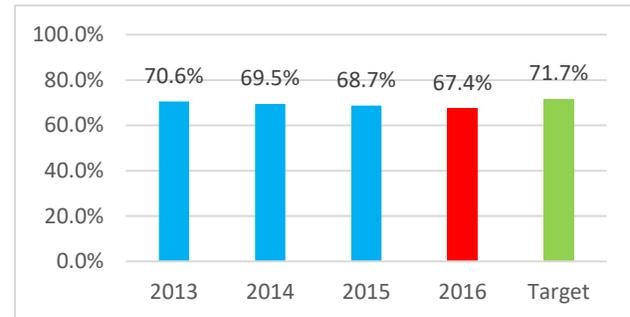

This data is now only collected with the Census of Population and will be released in 2018.

Percentage of population living at or below Low Income Cut Off Before Tax

Overall employment rate of Calgarians

This data is now only collected with the Census of Population and will be released in 2018.
