

Council Innovation Committee

Please accept this letter of support for Ward 9 and Cllr Carra's Multi-community Communication and Governance Model Pilot Project. The FLCA Board of Directors is excited to work with Ward 9 and Cllr. Carra on a truly innovated pilot project.

One of the FLCA's visions is to revolutionize the role community associations play in the lives of their communities and residents. This pilot project directly supports our vision and will allow us to expand our autonomy and impact by addressing the organization issues we experience as a small NFP who runs solely on volunteer hours.

Additionally, this project will allow us to collaborate and engage with the Ward 9 Office and act as a conduit to share work across organizations. We are excited to expand our reach in the community and to empower our members to expand their outreach in a powerful way.

In conclusion, we are excited to begin work on this pilot project and are committed to working closely with the Ward 9 Office team.
