Dear Calgary Public Submissions,

Calgary's e-scooter program has helped me in the following ways:

- getting to work
- avoiding traffic
- feeling good about carbon-free transportation
- running quick errands affordable downtown

Thank you for your leadership,
Timothy Smith

I am writing to let you know I support e-scooter sharing in Calgary because I believe alternative transportation options are important in a modern, sustainable and accessible city. I think scooters are the perfect option to replace short motor vehicle trips because they are approachable and fun for just about everyone!

I hope to see a continuation of the scooter share program and more things like it in the future!

Thank you for listening,
Colin King

I am writing to let you know I support e-scooter sharing in Calgary because... I am a low income vulnerable Calgarian. Because of lime I have been able to make a little more income. Buy becoming a lime juicer. And having the ability to be self employed and work when I choose. To supplement my low disability benefits income. This has been a great opportunity that's contributed to my well being in both my illnesses and financially. I'd be very sad to see lime not being able to continue here in Calgary. And it would have a profound effect on me Soley depending on my disability benefits. Thank you for your consideration. I am definitely one happy lime user and juicer!

Dear Calgary Public Submissions,

Calgary's e-scooter program has helped me in the following ways: I live very close to downtown and love using the scooter to get home. Fun efficient quick and safe way for me to travel. Please don't mess this up like so many other city driven initiatives. Thanks.

Thank you for your leadership,
