Re: Notice of Motion on Community Planning in North Central Green Line Communities

To: Mayor Nenshi and Council

On behalf of the Crescent Heights Community Association Planning Committee please accept this letter as our endorsement of the above Motion put forward by Councillor's Farrell and Carra.

While we embrace and are excited by the City's initiatives such as Green Line and Main Streets, there is also a feeling of apprehension, vulnerability and concern that these major developments will change our wonderful community and make it less desirable as a place to live and less diverse than it is today.

This motion indicates that Councillors Farrell and Carra understand and acknowledge our issues and concerns. Please approve this Motion.

Sincerely,

Dennis Marr

Director, Planning, Crescent Heights Community Association
