Next Generation Planning System: Guidebook for Great Communities
As part of the Next Generation Planning System, the Guidebook for Great Communities aims to:

- Focus on how people experience communities at the street level.
- Provide more housing choice and services to residents of all communities.
- Increase consistency and certainty in the planning and redevelopment process.
- Implement the MDP and lay the foundation for the Land Use Bylaw renewal.
Calgary keeps attracting more people.

Our city is growing and changing – fast!

Couples with children | One person | Couples without children | Lone parents | Two or more people, not family | Other families | Multigenerational families
--- | --- | --- | --- | --- | --- | ---
30% | 24% | 23% | 7% | 6% | 5% | 3%

One person and couples without children make up 47% of households in Calgary!

The number of one-person households is growing in Canada.

1951: 7.4%
2016: 28.2%

More couples are choosing not to have children. From 2011-2016:

In Calgary, the gap between how much people make and how much homes costs has been widening for 25 years.
The Next Generation of Planning | Why Now?

Our outcomes and tools to get us there need to be aligned

> There is a disconnect between the MDP and the land use bylaw

> We have more policy than we can handle – all created in different time periods
Direction from November

- Build awareness of the Guidebook
- Communicate the vision & intent of the Guidebook
- Prepare a clear engagement process
- Provide further clarity on the relationship between this work and the City’s shift to larger local area plans.
