Dear Members of SPC on Planning & Urban Development:

**Re: PUD2017-0516 Centre City Levy Program – Annual Report for Year 2016**

BILD Calgary Region and NAIOP Commercial Real Estate Development Association are pleased to acknowledge the work undertaken on behalf of Administration to continue to refine and update the format for the annual report pertaining to the Centre City Levy Program.

The modified reporting format is much improved in terms of providing a level of detail in order to confirm that the collection of revenue and the terms and conditions by which those funds are spent, are in keeping with the intent of the bylaw.

It is our understanding that this is an evolving, living project, with the annual reporting to take place next year again, it is hoped there might be an opportunity to further modify the report to have a similar level of project detail for water and sanitary projects, potentially closer to the level of detail Administration has achieved for the landscaping and urban realm improvements.

Again, we are very appreciative of Administration for genuinely collaborating with Industry over the past year in regard to implementing the additional refinement (detail) into the above noted
