

## Jaipur Bridge Replacement Renderings

### Principles:

#### ***For the City + Community***

- Connect people to the downtown, Prince's Island Park, and the community of Eau Claire
- Build a vibrant centre-city riverfront

#### ***Active + Multi-modal***

- Provide a safe and accessible crossing

#### ***Flood Protection + Resilience***

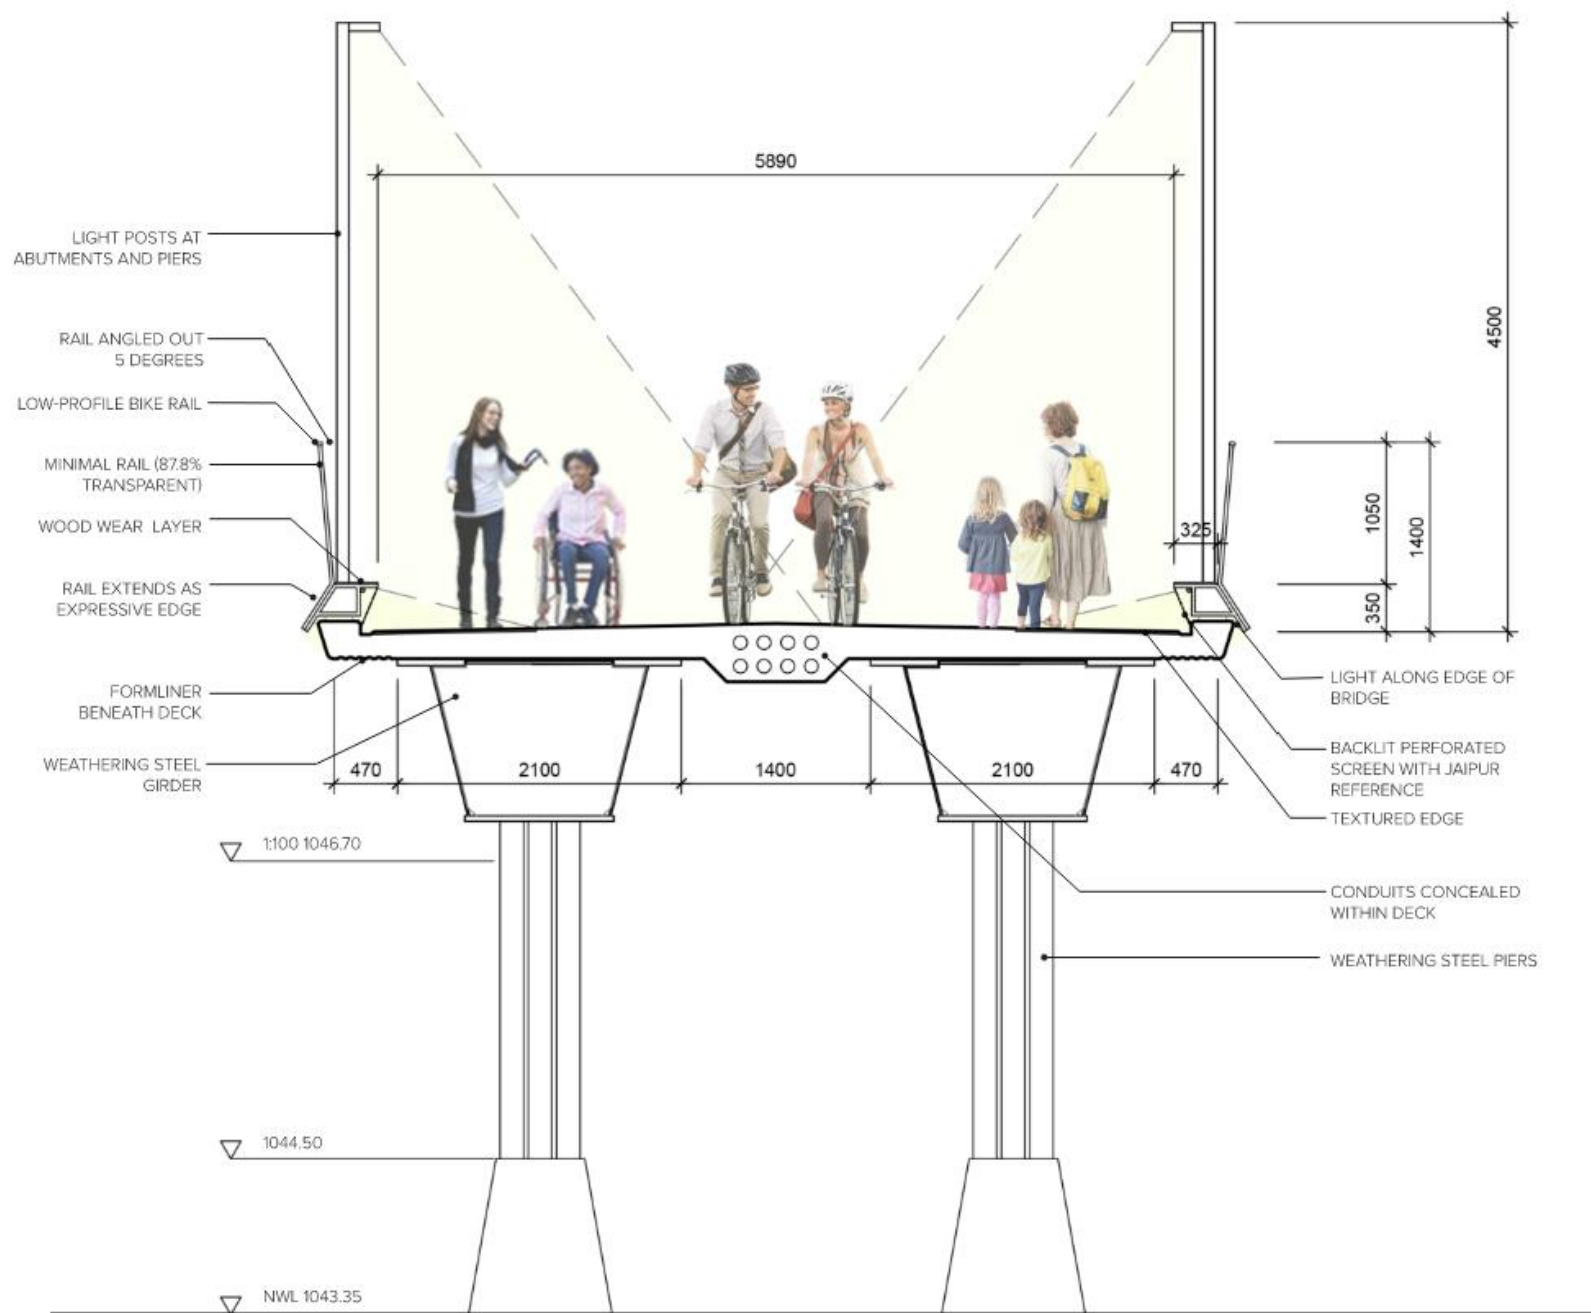

- Increase the elevation of the bridge above the 1:100 flood
- Service life of the bridge will be 100 years

### Jaipur Bridge Replacement:

- Provides life-cycle replacement
- 60 metres total length
- 3-span structure
