Re: LOC2016-0320

Dear Mayor & City Councillors

This letter is regarding the proposal to rezone the land adjoining the Genesis Centre in Martindale from Special Purpose-Recreation to Multi-Residential.

For ease of reference and to assist affected residents, we have struck a volunteer committee and named it the "Save the Genesis Park Committee" to facilitate discussions about the fate of this important green space next to the Genesis Centre.

We believe that the Genesis Centre is the focal point of a significant part of the everyday lives of the residents in the North East. We have a large population of children, youth and seniors that live, work and play in the NE. The Genesis Centre is vital to our quality of life, our leisure activities and our educational opportunities. Therefore, anything that affect the Genesis Centre affects each and every resident from Castleridge to Skyview, from Corral Springs to Falconridge. The Genesis Centre is one of the most important City facilities in all of Calgary.

It is why we were so disappointed to see the lack of citizen engagement in this rezoning process. There was a complete lack of public consultations, no city led public engagement or discussion about the impact of this rezoning on today's activities at the Genesis Centre or future growth plans of the Genesis Centre. As well, there was very little discussion with any of the affected communities with the exception of Martindale and that was limited to a minimal discussion with the president of the Martindale Community Association. But there have been no public consultations with the general NE population. In our view this constitutes a gross deficiency in this approval process and has left out all the residents who will be directly impacted by this proposal.

Specifically with reference to the letter of March 21, 2017 to the City of Calgary Planning commission; in response to the planning meeting on March 23, 2017 and the decision taken in the meeting we have following additional concerns that have not been addressed.

We are strongly opposed to the proposal to change the land use from special purpose - recreation to multi-residential. **We have attached a petition signed by 2,068 residents (Exhibit A)** in support of our position. We urge the Council to reject this rezoning proposal on the following grounds and as mentioned below.

SUMMARY

1. **Why Martindale?**

We believe that the criteria mentioned for choosing the proposed area in Martindale do not meet the criteria mentioned in the Municipal Development Plan of the City of Calgary. Most of the points described as the reason for the proposal to change the land use are not supported by the facts.

Proposal Point 1: Area is surrounded by low density Area (Meeting minutes of April 23rd Planning Commission Meeting - Exhibit B):

- Actually this area is surrounded by the most densely built and populated area of Calgary (Refer Census Table Enclosed-Exhibit C)
- On the East Side of Martindale is Taradale, whose Population Density is the highest in the city of Calgary.
- On the West Side is Martindale, whose Population Density is 2nd highest in the city.

Clearly the proposal is wrong in suggesting there is low density anywhere in this area!

Point 2: It is close to Saddletowne LRT:

- Calgary has 45 LRT Stations and the population density of the other areas around Tuscany, Dalhousie, Brentwood, Somerset, Fishcreek, Shawnessy, Canyon Meadows, Anderson, Southland, Heritage LRT Stations is between 2327 and 3737 (as compared to Martindale's 5600)
- There is lot of space near Somerset Station, YMCA, Commercial Centre
- Calgary has 2000 Bus Stops also and population density around many of them is less than Martindale and Taradale

Since these other areas have much lower densities, why not build higher density houses near Stations and Bus Stops surrounded by much lower density population.

Point 3: It is close to Genesis Centre:

- There are about 80,000 people who live in different communities and close proximity to the Genesis Centre. They use this facility on a regular basis. Out of this 80,000, about 10,000 are already considered low-income people. The Genesis Centre is currently a very busy facility and everyone who visits it already has serious issues with congestion and overcrowding.

2. **Lack of public engagement and consultations?**

(also noted in Exhibit B)

- Martindale Association gave clearance to the proposal by talking to 1 or two people of the area. Whereas hundreds of people have petitioned the City rejecting this amendment
- No engagement or opinion was sought from any other community or the other 80,000 residents of the NE, who use Genesis Centre on a regular basis. Many of them have expressed their deep opposition to this amendment (please see petition), as many believe this amendment will ruin Genesis Centre.

SO, THERE IS NO GROUNDS FOR ACCEPTING THIS AMENDMENT. More engagement, consultations and studies need to be done by the City to explore alternate proposals for Attainable Homes.

Additional Relevant points of consideration are detailed below.

1. **Potential conflict of interest**

- The open house on March 13, the only engagement to date, was not conducted by city to provide information or answer questions or find out about what the community needs are?
- The Consultant to Attainable Homes conducted the open house, with very little advance notice and very narrow distribution. Regardless we contend that they have no vested interest in listening to the opinions or needs of the community. Most of our questions went unanswered and the onus was put on City to respond. Yet City said they are not driving this application, Attainable Homes is, so they had no representation at the meeting. **The result was the loss of the community's ability to have its needs and opinions heard at the decision table.**

- Another concern is that the City is selling the land to its wholly owned subsidiary with a rezoning condition that requires its own approval. There is no impartial review, public tender process or non-city affiliated group non arms-length verification of the veracity of the proposal or the proposed price for the land. This matters because the land will ultimately end up in the hands of developers who will be reselling the land to the general public. This perceived conflict of all entities involved in this transaction ultimately reporting to City Council, who ultimately acts as the seller, the buyer and the regulator leaves a perception of a non-arm's length transaction.
- During the planning meeting at the City on the 23rd March, the President of O2 Consulting excused himself from the final vote. But again the perception persists of a non-arm's length transaction, when it is O2 consulting acting for the buyer, Attainable homes and sitting on the planning commission during the entire rezoning process and only excusing himself at the final vote. He did not declare his interest in this matter throughout the planning process, leaving an impression of perceived conflict of interest.

2. **Proposal of Building Attainable Home**

We have no objections to the City building Attainable Homes for low-income groups in Calgary. But we have strong objection to building these homes in Martindale, which is already a very highly densely populated community.

Attainable homes should be built but in less populated areas and with lesser dwelling density.

3. **High Density Population:**

Martindale is one of the most densely populated areas (Exhibit C).

Population Density/KM²:

Martindale (Area 2.7 KM ²):	5,516
Calgary Urban Area (Average):	2,111
Most of the areas of Sizes > 2 KM ² :	2,500

4. **Dwelling Density:**

Martindale already has a large number of small houses; therefore the Dwelling Density of this area is already very high. Below are the facts:

No of Houses/KM²:

Martindale:	1,546
Calgary Urban Area:	852 (Average)

7. Green Space:

During the Planning meeting at City Hall on 23rd March 2017, the City Parks Department advised the committee that Martindale has more green space than other localities. This statement is very misleading. The department did not take into account the following construction, which has taken place very recently in the so-called green land:

- Manmeet Singh Bhullar School
- French School on Martindale Blvd.
- Mandela High School in Genesis Complex.

Followings facts were also not considered:

- a. Green space/ Playground areas of the schools are restricted space and not available to the general public at all times.
- b. An area on Martindale Boulevard is considered Flood point and is inaccessible and shouldn't be counted as green space
- c. There are inadequate playgrounds for children in the area. In some places especially near newly proposed sites, children have to walk 15-20 minutes to reach the play area.
- d. Residents can't walk their dogs inside school area.
- e. No ability to expand green spaces on the east side of NE because of sour gas issues.

Again, since this meeting was the first time residents heard this from the City, there was no opportunity to engage with the City Parks department to ensure adequate consultations and information is being relayed prior to making a final determination.

8. Inadequate Public Engagement and Timeline:

a) Open House on 13th March 2017:

This was organized by O2 on behalf of Attainable Homes and in the presentation they only covered the benefits of low-income housing. There was no information about impact of this on the residents of Martindale, or other communities in the NE or users of the Genesis Centre, who will be significantly impacted by the loss of this recreational land.

b) Recommendation of Martindale Association:

In the open house, it was indicated that the City had consulted with the President of the Martindale Association in regards to this proposal. But the association never contacted the public/residents on this issue. Therefore, their consultation was completely inadequate and not representative of the community. Again no consultations took place with any other NE community directly affected by this change to area directly adjacent to the Genesis Centre.

- c) There has been inadequate public engagement on this critical issue:
- 1st Letter was issued just before Christmas 2016 and the reply was expected by Jan 2, 2017. Letters were sent only to a few people. Over the holiday period how could people gather together to discuss this issue.
 - After a request for an Open House for Public Engagement, again only 4-5 days' notice was given to a selected few. Therefore only few people were informed. Public Notices were put out very late and the time of the meeting was kept on working day, when most people are distracted and unavailable to be fully engaged.
 - There was zero engagement, consultations or discussions with any other community association, groups or individuals in the NE.

9. Recreational Needs

Please see attached materials from Field Hockey groups who have been approaching city for fields needed to meet their needs. We would like to ask the City why these needs are not being considered. This land is earmarked for Recreation and there is a defined need and the appropriate support from the community is available for this endeavor. But there has been no consideration for this alternate use.

10. THE PROPOSAL NEEDS TO BE DEMOCRATICALLY PROCESSED:

As per City's Document in Agenda point 05.04 of Planning meeting on 23rd March, supposedly Martindale Association approved the proposal (It is understood that this approval was provided by one member of the executive with no support motion of approval from the Board). Therefore we call into question this supposed community support, while we have provided signatures of thousands of residents opposed to this zoning change. Again, given the severe lack of citizen engagement, how can this proposal go forward without any public support?

In conclusion, we are very concerned with the severe lack of public engagement and consultations on a proposal that is strongly opposed by many residents in Martindale and other NE communities who frequent the Genesis Centre. We believe the proposal to rezone the Special Recreation use land for residential development has not met the minimum requirement for adequate consultations. We feel that the NE needs Special recreation land and we have been given no reason why this particular piece of land should be rezoned. In addition, based on the many points above we are not in favour of the current proposal and ask City Council to reject this rezoning application.

Sincerely yours,

Gurmeet Bhatia

Sarbdeep Baidwan

On behalf of

Concerned residents of Calgary

EXHIBIT B

ITEM NO.: 5.04

COMMUNITY:

David Mulholland

MARTINDALE (WARD 5)

FILE NUMBER:

LOC2016-0320

PROPOSED REDESIGNATION:

From: Special Purpose – Recreation (S-R) District

To: Multi-Residential – Contextual Medium Profile
(M-C2) District

MUNICIPAL ADDRESS:

7451 Falconridge Boulevard NE

APPLICANT:

O2 Planning + Design

OWNER:

The City of Calgary

ADMINISTRATION RECOMMENDATION:

APPROVAL

PLANNING COMMISSION DECISION:

2017 March 23

MOTION:

The Calgary Planning Commission accepted
correspondence from:

- Don't Sell Our Park Committee dated 2017 March 21;

as distributed, and directs it to be included in the report
in APPENDIX III.

Moved by: L. Juan

Carried: 6 – 1

Opposed: R. Wright

Absent: Mr. Palmiere left the room due to a pecuniary
conflict of interest and did not take part in the
discussion or voting.

The Calgary Planning Commission recommended that
Council:

1. **ADOPT**, by bylaw, the proposed redesignation
of 1.90 hectares ± (4.68 acres ±) located at 7451
Falconridge Boulevard NE (Plan 1510804, Block
1, Lot 6) from Special Purpose – Recreation (S-
R) District **to** Multi-Residential – Contextual
Medium Profile (M-C2) District, in accordance
with Administration's recommendation; and
2. Give three readings to the proposed Bylaw.

Moved by: D. Leighton

Carried: 7 – 0

Absent: Mr. Palmiere left the room due to a pecuniary
conflict of interest and did not take part in the
discussion or voting.

Reasons for Approval from Mr. Leighton:

- I supported this application because of its high degree of alignment with the MDP. Its location, close to LRT and the Genesis Centre, and separation from other lower density sites. These factors support redevelopment of this site to higher density residential.
- I would, however, note that City-related projects such as this should have a more systematic and rigorous public consultation and information process. I suggest that the City's "Engage" team be involved earlier on City owned or initiated projects, such as this.

EXHIBIT C

Spring 2012: NE LRT Line: Bridgeland-Memorial to McKnight-Westwinds Station

Spring 2013: NE LRT Line: Bridgeland-Memorial to Saddletowne Station

Park and Ride

One park and ride parking lot at Saddletowne station with 130 stalls opened in conjunction with the Blue Line extension. The occupancy rate is at 100% with a waiting list for reserved parking. Although there are a limited number of Park and Ride stalls for this extension (compared to other terminal stations), the location of the Saddletowne and Martindale station within the heart of the communities encourages transit customers to use bus service or walk and cycle to access the CTrain. There have been very few complaints regarding the limited supply of park and ride spaces.

Mr. Stuart Rose
City of Calgary
Recreation & Sport

Dear Mr. Rose,

Sport Calgary has been actively involved over the past several years in the engagement process leading up to the development of new fields, turf and facilities. We became aware of the future closure of the artificial turf field located at the University of Calgary approximately eight months ago. This closure will affect many sports but most eminently, Calgary Field Hockey participants, who utilize this field as their primary competitive and training facility.

We were invited by Field Hockey to attend a meeting with Dennis LaFreniere to discuss possible locations for a new turf field, to be funded primarily through the efforts of Field Hockey, in the Calgary area. Dennis came up with a number of suggestions but was drawn to one site in particular, the Jackson Port recreation site, as there were no turf fields in the area at present or scheduled in the future.

The Calgary Field Hockey groups have demonstrated the ability to raise money (presently having a substantial fund on hand) and with this proven ability, we feel they could meet the challenge of a building fund geared toward turf fields at Jackson Port or a similar location. Mr. LaFreniere made no promises but was very encouraging to the group to continue moving the project forward.

The group brought forward the Jackson Port Field Hockey Plan as their concept plans toward the project. The Alberta Field Hockey Association has a strong strategic plan which also supports this concept plan.

Sport Calgary supports their efforts as one artificial turf field closes and their desire for a new superior field grows. The organizations involved in Field Hockey contribute every year toward this building project and we support their planning process and fund raising plans.

It is with pleasure that Sport Calgary supports the principles and activities surrounding the designation of land for artificial turf development, headed by Alberta Field Hockey and Calgary Field Hockey organizations.

Sincerely,

Murray Sigler
CEO
Sport Calgary

cc. Burgundy Biletski

FIELD OF DREAMS

The future home of Calgary field hockey

Field Hockey Field of Dreams

- Two field hockey specific pitches
- One covered pitch
- Watering system
- Washrooms, change rooms and office space

Alberta Field Hockey Facilities Foundation

Mission Statement:

Unite field hockey associations to plan, create and maintain facilities for field hockey

Vision:

Adequate and appropriate facilities available for all field hockey activities and membership from beginner to international

Our Values

In relation to external stakeholders we will:

- Provide inclusive programming
- Listen and communicate effectively
- Be open and transparent

In relation to internal stakeholders we will:

- Value the well being and diversity of our people and communities
- Listen and communicate effectively
- Be cooperative and work as a team
- Strive for excellence and innovation

Community Benefit

- Promote healthy lifestyle for people of all ages
- Provide youth with the benefits of team sport (cooperation skills, leadership skills, physical literacy skills, social interaction, a sense of belonging and appreciation of different abilities)
- Support field hockey skill development, grow talent, foster future championships and develop national team athletes
- Increase healthy social activity for all ages and levels of Long Term Athlete Development
- Provide a new outlet for high energy youth who aren't interested in mainstream sports

- Alberta Field Hockey Association
- Calgary Ladies Field Hockey Association
- Field Hockey Association of Calgary
- Calgary Junior Programs
- Calgary Senior High School Athletic Association
- The City of Calgary
- Field Hockey Canada

Key Stakeholders Supporting Field of Dreams Project

Provincial Field Hockey Growth 2010-2016

Field Hockey is on the rise in the City of Calgary

- Calgary field hockey membership has increased by 24% from the 2015 season
- The number of Calgary High School Teams (non-member programs) continues to grow with 35 teams participating in 5 divisions
- Growth rate is exceptionally high in youth programming with an increase of 47.5% in the spring of 2016
- Calgary is the field hockey hub of Alberta holding 85% of the current memberships

Field Usage

Field hockey numbers continue to grow in the city of Calgary. The pending loss of our only field hockey specific facility in Alberta in 2021 due to the University of Calgary District expansion is extremely unfortunate. Our growth combined with the loss of our current facility has resulted in our user group being identified as in dire need of a new facility.

The following slides illustrate the potential field usage on a dual turf facility. Additional time may be booked through individual clubs. Turf per hour cost has been listed at \$110, however, price would be flexible with supporting associations. Access to a dual turf facility would fulfill our facility needs for expanding programs as well as increase tournament hosting opportunities for local clubs, Provincial Championships and National Championships.

[illegible]

Financial Plans

2016-2021

Current funds available per organization

- Calgary Ladies Field Hockey Association
\$250,000
- Field Hockey Association of Calgary
\$200, 000
- Alberta Field Hockey Association
\$50,000

Total: \$500,000

Fundraising Goals

Fundraising Initiatives

- Apply for matching grants
- Website with donations tab
- Revenue generating tournaments
- Sponsorship opportunities
- Casinos
- Gala/Dinner
- 50/50 at Flames game

Grant Opportunities

- Community Facility Enhancement Program
 - Calgary Foundation
 - Sport Facility Renewal Grant
 - Aviva Community Fund
 - Field Law's Community Fund Program
- RBC Play Hockey
 - Community Capital Conservation Grant
 - Canada 150 Grant
 - Additional Grants on Grant Seeker

Operations

Costs & Revenue

- Revenue would be collected through hourly user fees
- Earnings would be approximately \$221,400 per season with the possibility of greater earnings when more tournaments are hosted and through additional user group rentals
- Earnings could increase by a higher hourly rate

Dual Turf Facility Revenue

A black and white photograph of a tennis court. Several players are visible on the court, some in motion. The image is semi-transparent, allowing the text to be overlaid. The text is white and centered within the semi-transparent area.

Dual Turf Operational Costs

- Lighting
- Water
- Sweeping
- Washrooms
- Maintenance
- Repair

Field Specifications

Field of Play

A hockey field comprises the field of play (FOP - the area within the field markings) and run-offs around the perimeter.

The Rules of Hockey specify the size of the FOP and minimum and recommended run-off widths. Wherever possible the recommended widths should be used, and these are mandatory for fields used for higher-level international competitions.

The FOP measures 91.40m by 55.00m. The width of the run-offs should as detailed below. The inner portion of the run-off should be surfaced with the same type of hockey-turf as the FOP. The outer part may be surfaced with hockey-turf or a different material (e.g. asphalt paving) providing it is laid flush to the inner run-off.

Run-off dimensions			
		Recommended	Minimum
	Total (inner and outer portions)	≥5.0m	≥3.0m
End run-offs (a)	Inner hockey-turf run-off	≥3.0m	≥2.0m
	Total (inner and outer portions)	≥5.0m	≥3.0m
Side run-off (b)	Inner hockey-turf run-off	≥2.0m	≥1.0m

For some FIH Tier 1 events an operational margin outside the run-offs are also required. These should be at least 1.0m in width and surfaced with hard paving.

Field Profile

The profile of a hockey field is very important. Gradients aid drainage, but if they are too steep, they can have an adverse effect on the consistency of the ball roll. As surface consistency is a key requirement for hockey and especially at the elite level, the FIH has established recommended gradients as follows:

Field category	Longitudinal gradient		Lateral gradient	
	Preferred	Maximum	Preferred	Maximum
Global	≤ 0.2%	≤ 1.0%	< 0.4%	< 1.0%
National		≤ 1.0%		< 1.0%
Multi-sport		≤1.0%		< 1.0%

Experience is showing that the latest types of global category hockey-turf based on texturised-monofilament pile yarns are particularly sensitive to gradients over 0.6% and the advice of the hockey-turf manufacturer should always be sought before designing Global category fields that do not use the preferred gradients.

A number of different profiles are used including single planes (end to end, side to side and diagonal falls), envelope and ridge profiles. When envelope or ridge profiles are used, it is important that the change in gradients do not adversely affect the consistency of ball roll and ridges do not result in a central spine that exceeds the surface regularity of ≤6mm under a 3m straightedge.

Pile Length

AT-12546 (12mm)
Suitable for Hockey Pitches

AT-20145 (20mm)
Suitable for Tennis

AT-Pro (40mm)
Recommended for Indoor Futsal Pitches

AT-MLP (50mm)
Suitable for
Indoor and Outdoor Futsal Pitches

Tamanawis Park in Surrey BC

Tamanawis Park is a growing centre for field hockey in the region. This large (8 hectare / 19.5 acre) community park offers 2 full, lit artificial turf fields with a field house. The park also has 2 baseball diamonds and a soccer field that's shared with the Tamanawis Secondary School to the north.

Tamanawis Park is connected to the surrounding neighbourhood with a number of pathways, including the Serpentine Greenway, an important off-street multi-use pathway that connects the park with more distant neighbourhoods to the north and south. There are three picnic shelters in T.E. Scott Park. A large parking lot is accessible from the intersection of 64 Avenue and 126 Street.

Surrey, BC: The construction of the new Field house at Tamanawis Park got a

An aerial, high-angle photograph of a basketball arena at night. The arena is brightly lit, showing the court lines and the surrounding seating areas. The image is rotated 90 degrees clockwise. In the bottom-left corner, there is a circular graphic with a double-lined border. Inside the circle, the words "Project" and "Cost" are written in a bold, sans-serif font, stacked vertically.

Project Cost

Field & Fixtures

- Field preparation and turf install \$4 Million
- Field Dome \$650 000
- Irrigation \$350 000
- Lighting \$220 000
- Washrooms, changing and office facility \$185 000
- Use existing City of Calgary field/ball diamond with existing parking

Future Expansion

- Create indoor facility for indoor leagues and year-round

training

- Indoor facility could be used for community activities during the day

- Facilitate programming for seniors, toddler groups and new Canadians
