

Calgary

Office of the Councillors
COUNCILLOR E. Woolley

February 15, 2019

To whom it may concern,

I am writing this letter in support of Rutland Park Community Association's grant application for the Anti-Racism Community Grant Program.

I have worked with the Rutland Park Community Association for the last 6 years and they have shown leadership in addressing racism issues in the community. They have worked hard to build a sense of community for everyone in the area.

I've been an ardent supporter of anti-racism and I believe partners such as the Rutland Park Community Association fill a key role in achieving this goal. Community associations can be a great tool for fighting racism. They have strong networks and have the trust of the community. This grant would allow them to build on their great work and provide them with new opportunities to impact the community.

I'm honoured and happy to lend my support to Rutland Park Community Association's grant request. Please contact me if you require further information.

Yours truly,

Evan Woolley
Councillor, Ward 8
