I am speaking on behalf of Connect Church, a congregation that is currently looking for a permanent space to call home. We are requesting for the "Airport Vicinity Protection Area" to be amended and updated with current technology and current air traffic in mind. As we look for a permanent location we are restricted by not only zoning but also the airport vicinity protection area. The most available zoning for houses of worship would be I-G zoning and most of those buildings sit inside the airport vicinity protection area currently. As you review and consider amending this area please keep houses of worship in mind as many churches have been left homeless due to covid closures and shut downs. Connect Church continues to grow and needs a permanent place to call home. As a congregation we would never rally against airport noise to complain and change routes, but we do have an issue with houses of worship being restricted so much that it is nearly impossible to find a building to settle in. It forces churches to be portable renters forever, and those options are becoming fewer and fewer. Thank you for. your consideration.

I live in Southview and the noise from planes is terrible! If these changes will reduce the noise then I'm all for it. If the amendments are going to allow for more noise, then I'm highly opposed. It makes our backyard a very unpleasant place to be when the planes fly so low and make such a racket. I can't even hear the person standing beside me, that's how loud it gets.
