(Added to staff recommendations)

- 3. Direct Administration to review the transportation infrastructure projects from the Off Site Levy Bylaw (OSLB) that are as yet unconstructed but approved to move forward through previous growth management overlay (GMO) removals in order to identify:
  - a. which projects could be right-sized (e.g. decrease road widths) to save capital costs as well as ongoing operating costs for maintenance;
  - b. which projects do not need to start until after 2026 (beyond the present and subsequent 4-year budget cycle); and
  - c. which projects could be staged with an initial interim solution, followed by full completion after 2026
  
- 4. Direct Administration to provide a summary of the findings from point 3 above, with clarity on allocated capital cost that could be reduced and a revised schedule of project starts, no later than end Q1 2021.
  
- 5. Based on the findings outlined in points 3 and 4 above, direct Administration in collaboration with Established Area Growth and Change Strategy and Infrastructure Calgary, to bring forward a preliminary recommendation, no later than 2021 Q1, that demonstrates how much allocated capital within One Calgary could be redirected from The City's contribution to Off Site Levy Bylaw projects, toward an Established Areas Infrastructure Investment Fund to further support our Municipal Development Plan goals. A full review of all applicable OSL projects and related recommendations will help inform the 2022 budget deliberations to be held in November 2021.
