

2019 Civic Partner Annual Report

Vibrant Communities Calgary

enough
for  all

Key highlights from 2019

Capacity Change: Successes include the development process and the launch of the refreshed E4A 2.0 strategy and examples of increased collaboration and expansion of networks across sectors.

Awareness and Will Change: 2019 brought several examples of collective advocacy efforts. Efforts made by Basic Income Calgary, The Justice Sector Constellation, PovertyTalks!, The Community Housing Affordability Collective (CHAC) and the Social Policy Collaborative are highlights.

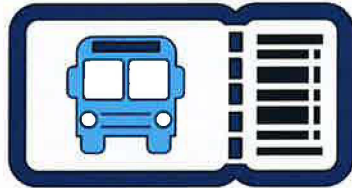

Systemic and Policy change: A key success in 2019 was sustaining existing policies for low income Calgarians. The majority of Champions (75%) believed that VCC is a leader in advancing policy change.

QUESTIONS?

THE QUESTIONS WE ARE ASKING

- What is the new face of poverty in our city and who will this strategy serve?
- How do leverage new partnerships, energy, and awareness to anchor Enough for All 2.0 in solution finding and systemic change?
- What needs to be integrated into Enough for All 2.0 post-pandemic?
- How do evaluate what has worked (and what hasn't) to inform all of the above?
