Hillhurst/Sunnyside ARP

Policy 3.2.2.17

At the discretion of the Approving Authority, the maximum building height allowed at 211 to 221 - 14 Street NW may be increased from 26 metres to 30 metres to create an indoor common amenity area with associated rooftop patio. The indoor common amenity area and other rooftop improvements such as mechanical penthouse shall be set back from the front and rear building facades. **Bylaw 81P2019**

RECOMMENDATION:

That Calgary Planning Commission approve the proposed Development Permit application DP2020-3902 for New: Dwelling Units, Retail and Consumer Service (1 building), Sign – Class B (Fascia Sign) and Sign – Class A (Address Sign) at 211, 217, 219 and 221 - 14 Street NW (Plan 6219L, Block 3, Lots 3 to 10), with conditions (Attachment 3).

Ground Floor Plan Revisions

Minutes from the 2020 November 05 Calgary Planning Commission Meeting

7.1.1 Development Permit in Hillhurst (Ward 7) at multiple properties, DP2020-3902, CPC2020-1212

A presentation entitled "Development Permit DP2020-3902" was distributed with respect to Report CPC2020-1212.

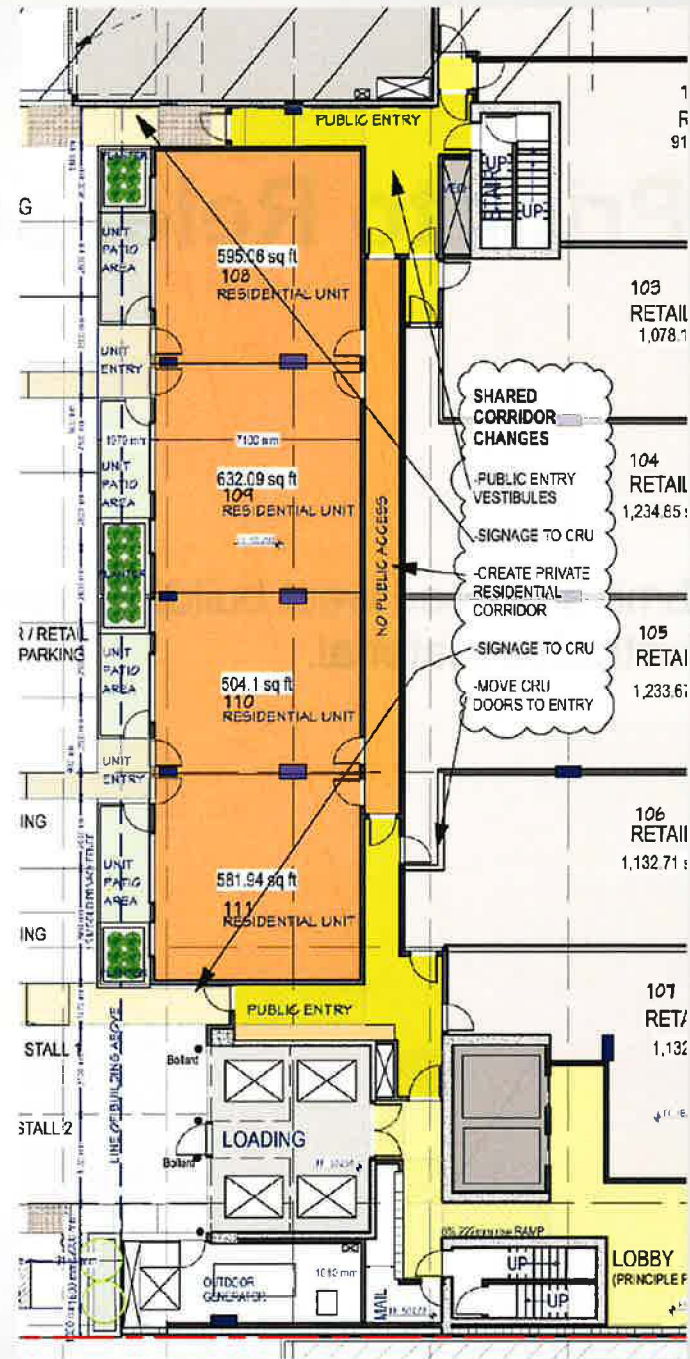

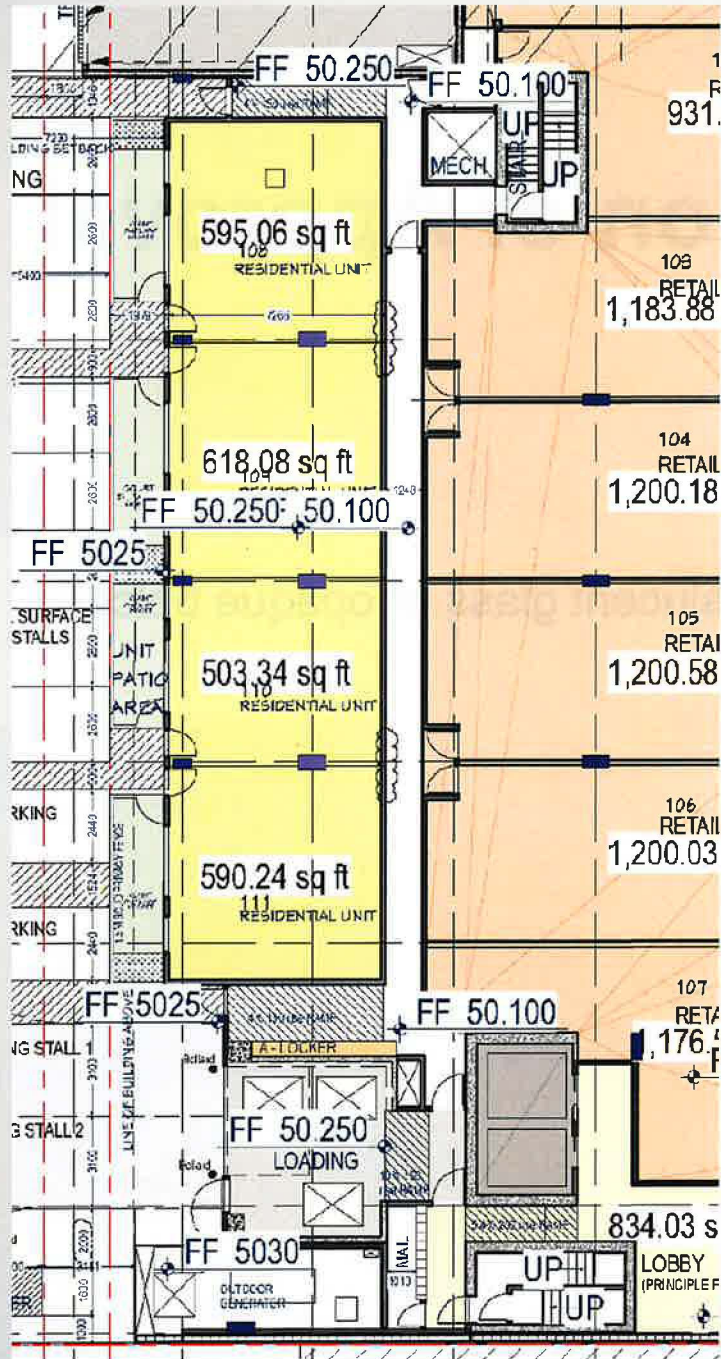

Brook Melchin, Riddell Kurczaba Architecture addressed Commission with respect to Report CPC2020-1212.

Moved by Commissioner Palmiere

That with respect to Report CPC2020-1212, the following be approved:

That the Calgary Planning Commission recommend that DP2020-3902 be referred to Administration to further resolve the design of the rear access corridor and ground floor configuration to address security and use conflict concerns to the satisfaction of Development Authority, and to report back to the Calgary Planning Commission no later than 2021 February 18.

Against: Councillor Gondek and Commissioner Schmalz

New Prior to Release Condition of Approval

3. Submit a revised west building elevation showing translucent glass or opaque balcony balustrades material.

ADMINISTRATION RECOMMENDATION:

That Calgary Planning Commission **APPROVE** the proposed Development Permit application DP2020-3902 for New: Dwelling Units, Retail and Consumer Service (1 building), Sign – Class B (Fascia Sign) and Sign – Class A (Address Sign) at 211, 217, 219 and 221 - 14 Street NW (Plan 6219L, Block 3, Lots 3 to 10), with conditions (Attachment 1).

The June 21 shadow created by the proposed building on neighbouring residential to the west is marginally less than the shadow the ARP envelope would create. This is achieved by moving the building as close to 14th street as possible and stepping the building.

The March 21 shadow created by the proposed building on neighbouring residential to the west is marginally more than the shadow the ARP envelope would create. This means that for more than half of the year the shadow created by the building is equivalent to the shadow the ARP envelope would create.

The December 21 shadow created by the proposed building on neighbouring residential to the west is more than the shadow the ARP envelope would create. However for those residences immediately across the lane the impact is still marginally less than the ARP shadow due to the building steps. The shadow impact is greater on lots further away than immediate neighbours. It is meaningful to keep in perspective that the winter sun is predominantly in the south, as such the real impact of shadow created by this building is to the north of the site on 14th street and on other taller buildings where the impact is less of a concern.
