To Whom It May Concern,

Canadian Cultural Mosaic Foundation is pleased to support Katie Green in organizing a Black, Indigenous and People of Colour led mural initiative in Calgary following suit of the many mural activations that have been happening throughout North America advocating for the lives of Black, Indigenous and People of Colour.

Canadian Cultural Mosaic Foundation is a volunteer-led non-profit based in Calgary that works to improve race relations and promote multiculturalism. We consist of team members from the Millennial and Gen Z demographic and we use that as our strength as it allows us to have a unique perspective in our work. Our work normally focuses on creating and organizing anti-racism projects, events, research, services and advocacy.

We recently gathered 72,000+ signatures for our petition asking The City of Calgary to hold a consultation on systemic racism, and look forward to the Notice of Motion on Monday. We believe this mural would be a great addition to that conversation.

We are pleased to support Katie's initiative and will help spread the word to ensure it is led by Black, Indigenous and People of Colour in Calgary and gives them the opportunity to take part, which doesn't always happen.

If you have any questions, please do not hesitate to contact me at 403-554-1815 or e-mail canadiancmf@gmail.com.

Sincerely,

Iman Bukhari

CEO, Canadian Cultural Mosaic Foundation
