

Background

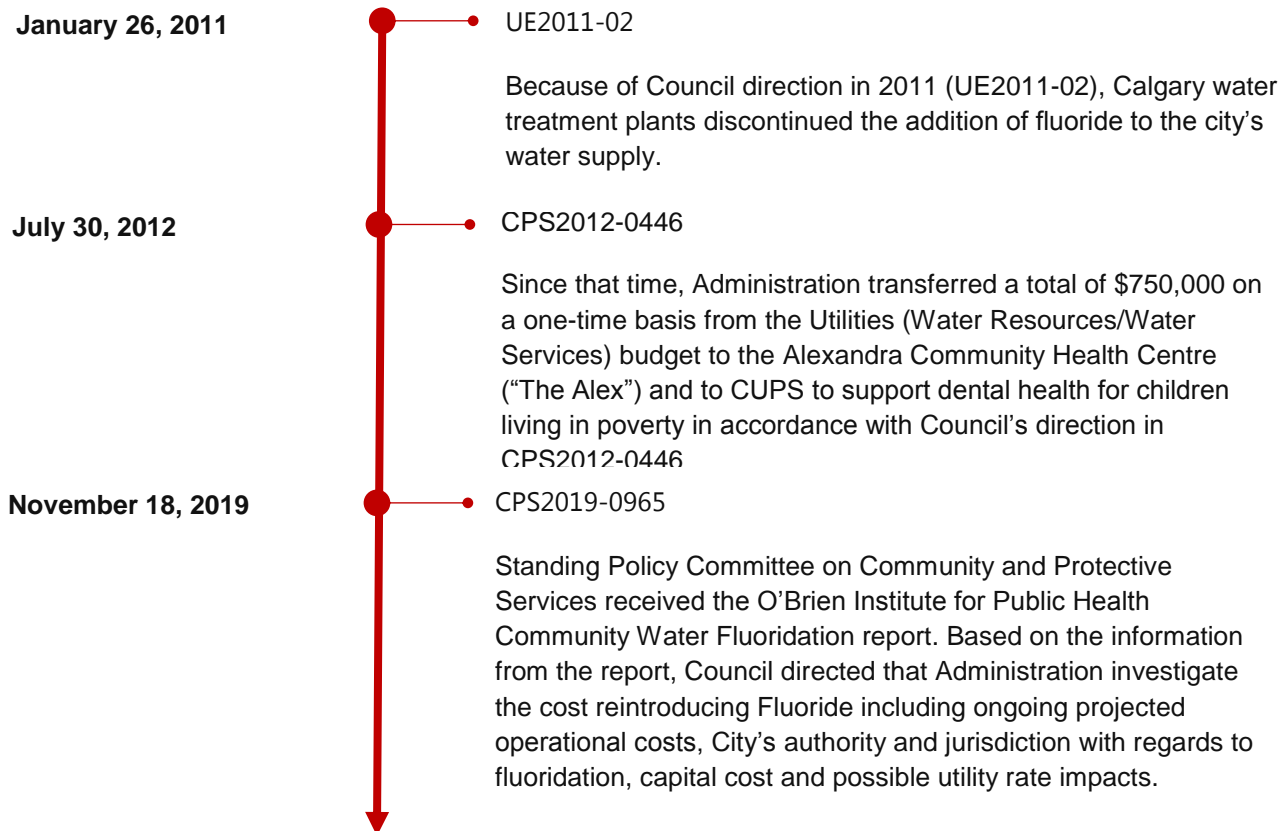

Context

Under One Calgary, The City of Calgary (The City) is committed to providing safe and cost-effective drinking water to Calgarians. Reliable water service provides the foundation to a healthy and green city. It ensures public health, allows for fire protection, and the health of the rivers and the economy.

Previous Council Direction

On 2019 November 18, Council approved CPS2019-0965 directing Administration to investigate the cost of reintroducing Fluoride into the water treatment process including ongoing projected operational costs, City's authority and jurisdiction with regards to fluoridation, capital cost and possible utility rate impacts.

Leading up to the approval of CPS2019-0965, Council directed the following:

Bylaws, Regulations, Council Policies
