

Background

Context

Protecting heritage sites through legal designation is an internationally recognized best practice in planning and is supported by City of Calgary policy. The three (3) proposed Municipal Historic Resource Designations in this report follow to the Calgary Heritage Strategy mandate to 'Identify', 'Protect' and 'Manage' sites of heritage significance. Information on overall progress towards Calgary's long-term heritage conservation goals can be found online at www.calgary.ca/heritage (see 'Progress Snapshot').

The One Calgary 2019-2022 Service Plan directs Administration to seek a target of seven designations per year. Detailed information on the qualifications and processes for designation as a Municipal Historic Resource, and incentives (including grants) can be found online at www.calgary.ca/heritage (see 'About Heritage Designation').

Designations are owner-driven and achievement of the target of seven annual designations can be affected by influences outside of Heritage Planning's purview.

To date, a total of 103 properties in Calgary have been designated as Municipal Historic Resources out of 869 extant sites on the Inventory of Evaluated Historic Resources (approximately 12% of the Inventory). Approval of the designations included in this report would bring the number of Municipal Historic Resource designations in 2020 to seven (7).
