GWL Realty Advisors

Dear Joyce,

I wanted to send my regrets on not being able to attend the presentation on January 11<sup>th</sup>. I would also like to express my appreciation for the efforts of the entire team on the successful approval of the Nose creek ASP. **The innovation that was demonstrated regarding the Health Impact aspects of the development was very worthwhile and as the key developer within the ASP, GWLRA is very supportive of the approach. I realize that health impacts have always been inherent in good planning principles, but it took great foresight to incorporate them directly within the ASP.**

Thanks for the efforts of you and your team in this endeavour.
