How did people hear about outreach opportunities?

- letters.
- Community board emails.
- City advertising.
- 4' x 8' sign board on site.
- City open houses for 24 avenue area redevelopments.

What we asked

- Our client looking to propose an assisted living facility 4 story height with Rezone to MC1 .
- The facility will fit into the existing residential community.
- Will be located on two parcels at the south east corner of 24 avenue and 22 street NW.
- Main entry for the proposed facility will be from the 24th avenue.
- Facility will add value to the area.
- Surface and underground parking for staff and visitors

Seniors Facility

Future Development and Re- Zone, DP 2018-5551
July 8 2020

- Security 24 hrs, monument team and privacy.
- Questions and concerns from the surrounded neighbours and community board are welcome.
- Our office willing to work with all to enhance the project to fit into the community.

what we heard

- Safety for the building during day and night.
- Parking issues.
- Construction noise factor.
- Building height.
- Land is too small for such facility.
- Ambulance and fire truck noise for the building residence.
- Shadow.
- Traffic issues.
- Restrictive caveat on title.
- Garbage collections.

What we heard, what we did

Comply with the surrounding neighbors' comments and the city:

- Safety, the facility will be monitored 24 hrs. and surrounded cameras.
- No shortage of parking or parking relaxation required.
- Restrictive covenant, landowners hired a legal consul to represent him.
- Reduce the south wing of the building to 3 stories (10M height).
- North wing 12 M height.
- South set back to be 3M.
- Privacy walls at the south side.
- Paving to the back alley along the 2 properties of the project.
- Enhance the corner landscape.
- Underground parking entrance from the back.
- Additional parking @ the back.
- Adding balcony to maintain the residential looks.
- Upgrade all the building facades.
- South privacy fence.
- Facility will operate by professional management team.
- First hearing at the city of Calgary.

Seniors Facility

Future Development and Re- Zone, DP 2018-5551

July 8 2020

Next steps

- Finalize the development permit drawings.
- Comply with the bylaw.
- Owners hired a law firm to deal with the land caveat.
- Owners to work with the city for 24 avenue improvement.
- Owner to communicate with Alberta health care.
- Owners will Contact the necessary consultant for the next step.

Summary of Input

Within the last two years we been working with the community board, the surrounding residents and the city planners.

Currently amended drawings will fit into the community and comply with all the concerns.

Submitted amended drawings for the development permits indicated all the requirements and comments from the community, the city planners and the UDRP panel.

Owner will be dealing with the security deposits, consolidate titles, 24 avenue area improvement, construction period, city levies and all the required conditions of the permit.
