

# PUD2021-0505: Designation of 26 Historic Streetscapes as Municipal Historic Resources

Report to Standing Policy Committee on Planning and Urban Development - 2021 April 7

I have devoted a considerable part of my energies during the past season to the construction of new boulevards, and have prepared a big program for the future, as I very much doubt if any other public improvement will tend to create and foster a civic pride in Calgary to the same extent as will the making of boulevards, and planting of trees on our streets, nor will any other feature of our city impress visitors so favorably.
