

# A prosperous city

## Performance Measure and/or Target Changes

**Department:** Deputy City Manager's Office

**Action Plan Performance Measure:**

No action plan performance measure.

**2016 Target:** N/A

**2017 Target:** N/A

**2018 Target:** N/A

**Business Unit:** Real Estate & Development Services (RE&DS)

**New Performance Measure:**

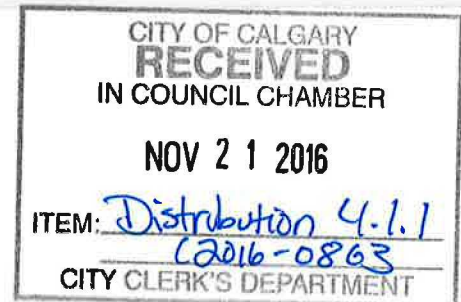

Amount of newly serviced and marketable industrial land added annually to the inventory (Acres)

**Revised 2016 Target:** 50

**Revised 2017 Target:** 50

**Revised 2018 Target:** 50

**Rationale for Adjustment:** RE&DS recommends that *a performance measure be added to measure the number of acres of serviced and marketable industrial land that is delivered to the inventory annually*. The proposed new measure will reflect the current economic state and is aligned with the 2013-22 Industrial Land Strategy, including RE&DS' mandate to maintain a one-year supply of serviced industrial land available for sale.
