*Distribution*

CITY CLERK'S DEPARTMENT

# Eau Claire Landing Various Public Realm Improvement Projects

# Eau Claire Landing Various Solutions Explored

Lower pathway elevation

Shift portal north into island

Pathway 'up and over' portal

**Selected Solution**

Shift 2 Avenue Station south

## Eau Claire Landing

### Proposed “Up and Over” Solution

#### Design goals:

- 1) Provide a strong east/west river pathway experience
- 2) Accommodate all modes (walk, wheel), abilities and anticipated volumes (~10,000 daily)
- 3) Connect 2 Avenue station & Bow Bridge pathway with Promenade, Eau Claire Plaza and Prince's Island Park
- 4) Provide adequate rest areas along the route
- 5) Make the area a destination, not a detour
