

Industry Letter

August 30, 2016

Delivered by Email

Councillor Andre Chabot
Chairman of the Standing Policy Committee on Planning & Urban Development
PO Box 2100 Station M
Calgary, AB T2P 2M5

Dear Councillor Chabot:

Re: Centre City Levy Update, PUD 2016-0706

CHBA-UDI Calgary Region would like to thank GM Stuart Dalglish, Director Kathy Dietrich and staff for deferring this report to SPC for PUD from April to September in order to generate an accounting for the Centre City Levy 2014 and 2015, which more closely resembles the format of the previous reporting for 2011 through 2013. We appreciate that senior administration recognized the benefit this additional detail would provide for those charged with overseeing the fund.

The 2016 City / Industry Work Plan initiative #3, Established Areas Committee, will be conducting a review with administration of the Centre City Levy to better understand how the program functions, where it has been successful and if/where modifications could be made to increase its effectiveness, and better align with expectations for infrastructure and service delivery in the centre city. Currently, administration is working with internal business units to obtain further detail to enhance the collaborative City/Industry analysis of the levy fund.

We look forward to continuing our collaborative work with administration in this regard.

Sincerely,

CHBA-UDI CALGARY REGION ASSOCIATION
