

Did you know...

- ✓ The City of Calgary is already planning on building 16 **low-income rental apartments** on 8 lots in the Rosedale Neighbourhood?
 - On very small lots designated as “**remnant parcels**”
- ✓ The City sub-divided the old lots and **rezoned them for multiple dwellings**?
 - Rezoned to RC1-5 to allow for **secondary suites**.
- ✓ City Council will vote to **approve** this project in September?
- ✓ The City plans on building two-story low-income apartments that are 14 feet wide by 40 feet long (14' x 40' = 560 sq/ft) and states they will fit into the **architectural style** of our neighbourhood?
- ✓ The City has been holding **individual street meetings** with only small groups of people being invited?
 - Not the whole community: Is this a **Divide and Conquer** strategy?
- ✓ The City has **refused** to sell these lots to people who live in our neighbourhood?

The “remnant parcels” are located at the north end (just south of the sound wall) of the following blocks (where you see the wood panels): 4A, 6th, 6A, 7A 8th, and 9th.

Considerations

1. Do you believe this will negatively affect our property values?
2. Do you think what the City has done is appropriate?
3. Do you feel the City properly communicated and has been transparent?
4. Do you believe this is a positive change to our neighbourhood?

Petition

Rosedale is an unique inner-city neighbourhood, home to many professional people whom have invested heavily in residences that reflect a commitment to enhance and dignify the locality. All proposed developments and alterations to premises should be reviewed carefully by the City, the Rosedale Community Association, and surrounding property owners to ensure that the high standards demanded of Rosedale properties are strictly enforced. Residents of Rosedale are extremely proud of their neighbourhood and are disturbed to find that its sanctity is under threat.

Therefore, I call on City Council to **not allow** for low-income housing in the Rosedale neighbourhood of Calgary.

Petition

Rosedale is an unique inner-city neighbourhood, home to many professional people whom have invested heavily in residences that reflect a commitment to enhance and dignify the locality. All proposed developments and alterations to premises should be reviewed carefully by the City, the Rosedale Community Association, and surrounding property owners to ensure that the high standards demanded of Rosedale properties are strictly enforced. Residents of Rosedale are extremely proud of their neighbourhood and are disturbed to find that its sanctity is under threat.

Therefore, I call on City Council to not allow for low-income housing in the Rosedale neighbourhood of Calgary.

Other: Many properties south of 16th are in sad need of repairs. It was my fervent hope that these would be sold and new residences fitting the extremely high quality of Rosedale houses would be built. The idea of cheap rental property - inappropriately called "affordable housing" condemns this area to be in a sad state of neglect.
