

### Refine Phase 3 Ideas

### What We Heard

### Review of Phase 3 Ideas

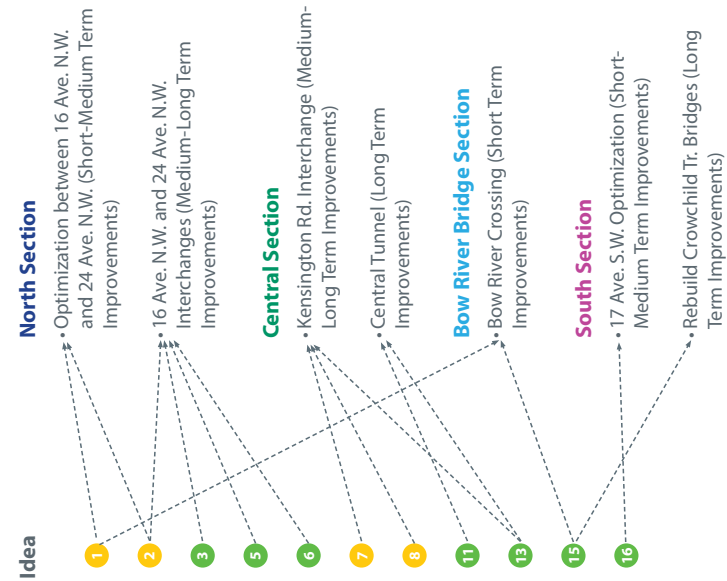

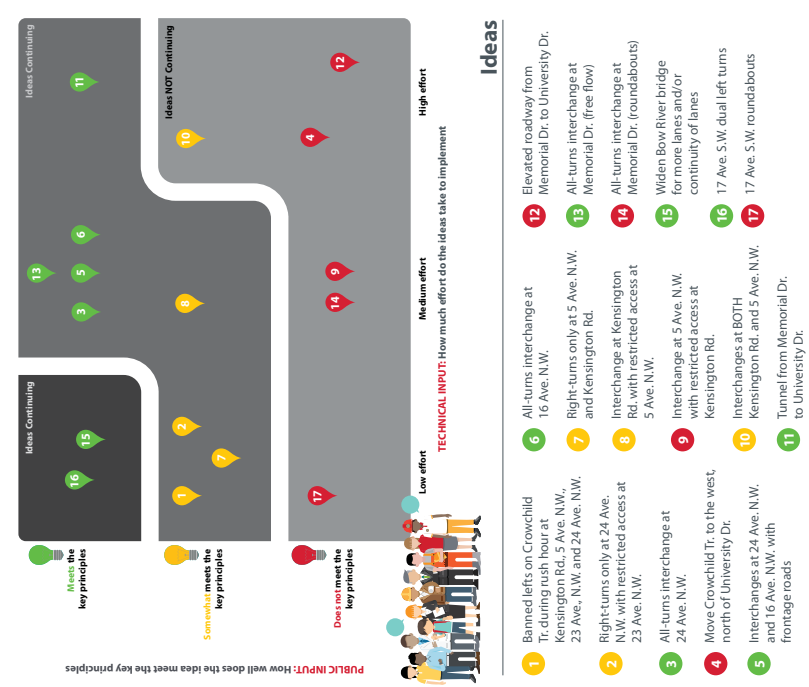

### Phase 4: Concept Evaluation

**Public Input**  
In February and March, Calgarians were asked to evaluate how well 17 ideas met the study's three key principles.

**Technical Input**  
The project team completed a technical assessment and evaluated how much effort the ideas require to implement.

The Phase 3 ideas that Calgarians said met or somewhat met the key principles well and met the criteria of the technical assessment moved forward to Phase 4.

These ideas were consolidated into 7 preliminary design concepts:

The Phase 3 ideas that did not meet the key principles and did not meet the criteria in the technical assessment will not move forward beyond Phase 3. However, the benefits of those ideas were captured and incorporated into the Phase 4 concepts.
