How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

The rezoning permit will not have any change on the density nor the height, it will only change the the 4 units arrangement.

Stakeholders understand that, and there should be no issue that will influence the project decision.

This is an ongoing process, during the progress of the rezoning application, I will continue to inform all stakeholders of the progress and make sure they are aware of any decision.
