Subject: [EXT] RE: LOC2020-0147 CPC Withdrawal

Hi Troy,

Further to our phone call yesterday, we are requesting that item LOC2020-0147 be pulled from the Thursday's CPC agenda. Our client has decided to make further changes to the building design that we would like to discuss with both the community association and neighbouring land owners with the hope of getting their support prior to CPC and Council.

At this time, we don't have a target date for CPC. I will be in touch when we have a better idea of when we would like to come back.

If you need any further information, please let me know.

Brian
