Please lift the mask bylaw for the vaccinated on July 1st; there is yet to be any evidence of a vaccinated individual spreading the virus in any capacity. We have seen no evidence of a spike in cases in any US state that has lifted their mask mandate, in urban or rural settings, so there is absolutely no reason to continue this pointless exercise in security theatre when the majority of Albertans, specifically Calgarians have been vaccinated, with time, I might add, to develop the immunity 2 weeks prior. All delta variant outbreaks have also been successfully contained, and evidence has shown that the Pfizer and moderna vaccines are up to 96% effective against it with just the first dose. Please get Calgary back to normal WITH the rest of the province.

End the mask mandate. If people still want to wear masks, they are free to do so. Masks are a medical intervention which come with risks and, as such, are a personal medical decision. This is not about politics. There is no reason to extend the mandate past July 1. Lifting the mandate will give us the opportunity to see how people are really feeling about it by observing those who still wear masks and those who don't.

We need to repeal the mask bylaw on July 1st. Continuing with the Mask Bylaw continues to divide the city, create unnecessary enforcement, anger and frustration. With a significant portion of the population vaccinated we need to move forward with Opening Alberta and Calgary. Individuals need to assess their own risks now and act according to their own risks. Masks should now be at an individual's discretion based on their own risk.

Date of meeting Jun 21, 2021

Comments - please refrain from providing personal information in this field (maximum 2500 characters) Good Afternoon - I ask that you PLEASE lift the mask bylaw - it is time. We can no longer sustain this type of living - the health issues that arise from wearing a mask far outweigh any "protection" that the mask provides. There are no scientific/peer review studies showing that the mask offers protection. Please stop this insanity. Thank you.
