### STAKEHOLDER ENGAGEMENT AND COMMUNICATION (EXTERNAL)

- Outreach was undertaken by the Applicant
- Public/Stakeholders were informed by Administration

#### Applicant-Led Outreach

As part of the review of the proposed policy and land use amendment application, the applicant was encouraged to use the [Applicant Outreach toolkit](#) to assess which level of outreach with public stakeholders and the respective community association was appropriate. In response, the applicant reached out to the Ward 8 Councillor, the Marda Loop Community Association, and adjoining neighbours. Furthermore, the applicant held a virtual information session on 2021 April 28, facilitating several online discussions and surveys garnering more than 40 questions and comments from the public. The feedback received and addressed by the applicant as summarized in the Applicant Outreach Summary (Attachment 5).

#### City-Led Outreach

In keeping with Administration's practices, this application was circulated to stakeholders, notice posting on-site, published [online](#), and notification letters were sent to adjacent landowners.

The Marda Loop Community Association (CA) was circulated on this application but did not provided a response. Administration attempted to follow up with the CA on 2021 July 29 through various means but ultimately no contact with the CA was made. Nevertheless, Administration is committed to continue reaching out to the CA representatives prior to the public hearing on this application.

Administration received nine letters from the public expressing concern and objection to the application. Generally, the concerns are related to potential increase in parking demand and potential nuisances perceived to be associated with the proposed restaurant and outdoor café uses. Generally, the concerns are related to potential increase in parking demand and potential nuisances perceived to be associated with the proposed restaurant and outdoor café.

In response to these concerns, the applicant initiated a comprehensive outreach strategy using the various forms described above. According to the Applicant Outreach Summary (Attachment 5) the vast majority of residents who participated in the engagement program walked away with a better understanding of the applicant's vision to re-purpose existing interior and exterior spaces to provide the additional uses. Furthermore, Administration does not anticipate significant off-site parking impacts related to the proposal as parking demand generated by the restaurant and outdoor cafés would be satisfied by the surplus of undesignated stalls available within existing parking areas of the assisted living development.
