Dear Sirs,

Submission for Public Hearing on November 9, 2015 Regarding
Land Use Redesignation Chinatown BYLAW 179D2015 and
Amendments to the Chinatown Area Redevelopment Plan BYLAW 38P2015

We are a charitable organization established in Chinatown and have been serving seniors and new immigrants citywide since 1985. We provide a great variety of services and programs, from social activities and community support to health services. We currently have more than 2,300 active members.

We are writing to express our grave concerns about the captioned land use redesignation and amendments to Chinatown A.R.P. We only learned about the proposed changes from the public notice posted on the newspaper and have not been consulted in advance.

The reasons of our concern are:

1. The alignment study to connect the Green Line North and South is currently underway, tabled options includes use of existing Centre Street bridge and construction of new Centre Street bridge alongside. The proposed increase of density and changes of discretionary uses may be premature since the route is not yet finalized. We expect the Applicant and City Planning to work together to develop more detail plans within the process of the Green Line before any change of land use designation within this district.
2. The parcel of land involved situates in a populated residential area and is in close proximity with senior apartments, assisted living facility and affordable housing. A high percentage of the residents are seniors. The proposed use of the Centre City Mixed Use District (CC-X) as the base district for development would bring in some undesirable activities related to certain business, such as hotel and

- nightclub, and cause disturbance to the residents. The peace and safety of the community is paramount and must be taken into consideration.
3. The unique cultural heritage of Chinatown is broadly recognized. It is a popular tourist attraction. Further increase the commercial density, such as increase of office area and abolish of building height limit, would ruin Chinatown's unique character.
 4. Sun light and warm are critical for the aged residents living at the south side of 2nd Avenue SW. The sun light protection area stated in item 15 of the application only cover the area between Centre Street NE and 1st Street SE, which is more than a block away from the development. The public and park area between Centre Street SW and 1st Street SW should not be left under the shadow of the development.
 5. The number of affordable housing units in Chinatown is diminishing. In order to encourage the developer to provide affordable housing to the community, the Floor Area Ration bonus incentive stated in Schedule C of the application should include bonus incentive for Residential Gross Floor Area with the provision of non-profit government-assisted (Federal, Provincial or Municipal) housing as an option, just like the existing Bylaw 70Z84, item 6(d).

In view of above, we plead the City Council to defer any decision on policy amendment involve Chinatown until the completion of a broad based consultation with stakeholders within the Chinatown ARP coverage.

We sincerely hope our input could be included in the presentations to City Council.

Yours truly,

Desmond Lai
President

THE CITY OF CALGARY
CITY CLERK'S

Dear Sir/Madam,

RE: Policy Amendment and Land Use Amendment to the
Chinatown ARP for 3 Avenue SW and 1 Street SW, Calgary
Bylaws 38P2015 and 179D2015

The Calgary Chinese Cultural Centre is one of the most prominent and most active community organizations in the Community of Chinatown, serving the Calgary Chinese community and the general public of Calgary since it opens its doors more than twenty years ago.

Recently, we became aware through a public Notice that there is an upcoming application before City Council to amend the Chinatown ARP by way of proposed Bylaws 38P2015 and 179D2015. Upon reviewing the proposed Bylaws, we are shocked to discover that the proposed amendment put forth changes so substantial that they will have far reaching and potentially devastating impact on the Community of Chinatown. The proposed changes violate the most basic values and principles that our community hold so dear, which were recognized and adopted by City Council at the time, when they were incorporated into the Chinatown ARP 35 years ago.

What is even more shocking is the way this proposed Bylaws came about. There seem to be an assertion that the community has been consulted and supports the proposed amendments. This is absolutely false. The community as a whole have never been notified, let alone consulted. Based on the reactions we have observed, an overwhelming majority of the Chinese community certainly do not support the proposed amendments via Bylaws 38P2015 and 179D2015. In fact, many in our community are outraged by such misrepresentation, methodology and the whole process behind the proposed Bylaws.

We are duty-bound to serve the community and protect the legitimate interests of our community to the best of our abilities. Therefore, we have no choice but to voice our concerns and opposition towards the proposed Bylaws 38P2015 and 179D2015. Accordingly, we respectfully request City Council to reject the proposed Bylaws 38P2015 and 179D2015. Please allow us to highlight some of the main reasons for our opposition to the proposed Bylaws.

The Community of Chinatown is not only a distinct and unique community, but also a residential community just like Eau Claire, Inglewood, and Kensington, all with retail commercial mix land

use to support the residential community. The Community of Chinatown is not commercial district, and certainly not a part of the downtown core, as many are mistaken in their belief and first impression. Any attempt to change a residential community into a commercial district is in effect an act of destruction and one of the quickest ways to destroy even the most vibrant community.

Thirty five years ago, Chinatown was faced with very serious social problems such as illicit gambling, “night clubs”, massage parlour fronted bawdy houses, cheap “hotel” featuring very short term (hourly) rental catered to the sex trade, and “ladies of the night” soliciting openly out on the street every evening. These problems were effectively eliminated within a relatively short period after the adoption of the Chinatown ARP. Now the proposed Bylaws try to change the ARP in such substantial ways that would open the door to allow all those illicit activities to return to the community. The proposed amendments run contrary to the very values and principles our community holds so dearly, the same values and principles recognized and incorporated into the ARP by City Council 35 years ago.

Chinatown is different from many other communities in many ways. We have a diverse group of stake holders, among them land owners, merchants, residents, visitors, and the entire Chinese community of Calgary. Each and every stakeholder should be treated fairly and with respect. Every land owner should be treated equally whenever possible. The proposed Bylaws confer benefit to only one landowner, but no others. It allows one landowners to do things that may create hardship and suffering to some members of the community. It benefits only the 0.01 % at the expense of the 99.9 %. To be clear, we are not anti-development. In fact we are pro-developments; we support developments that are responsible and beneficial to the general public, developments that help and enrich the lives of the members of community, and real developments that actually take place instead of theoretical proposals just to inflate the land value for quick profit in land speculation.

We have many other reasons, and we can go on and on. But instead of writing pages and pages of arguments, we respectfully request that we be given an opportunity to present our view in full detail before council on November 9, 2015.

If City Council in its wisdom feels that the Chinatown ARP should be reviewed, then let us do that, by specifically instructing the City Planning Department to conduct open and unbiased public hearings to give every stake holder and the general public an opportunity to express their views and concerns. Hopefully, through such open and democratic process, we could come up with a comprehensive plan that we all cherish and embrace. We submit that that the first step in this process is to disapprove and reject proposed Bylaws 38P2015 and 179D2015 in whole. Thank you for your consideration.

Yours truly,

Calgary Chinese Cultural Centre Association

Malcolm Chow, President and
Chairman of the Board of Director

Re; City Council Public Hearing – 2015 November 9

CPC2015-183

Bylaw 38P2015 (LOC2012-0101, Manu Chugh Architect)

To redesignate 0.61 hectares \pm (1.5 acres \pm) located at 117, 121, 123, 125 and 129 – 2 Avenue SW and 116, 120, 124, 130 and 134 – 3 Avenue SW (Plan C, Block 8, Lots 6 to 12 and Lots 28 to 40) from DC Direct Control District to DC Direct Control District to accommodate mixed use residential / commercial development.

Bylaw 179D2015 (LOC2012-0101, Manu Chugh Architect)

To redesignate 0.61 hectares \pm (1.5 acres \pm) located at 117, 121, 123, 125 and 129 – 2 Avenue SW and 116, 120, 124, 130 and 134 – 3 Avenue SW (Plan C, Block 8, Lots 6 to 12 and Lots 28 to 40) from DC Direct Control District to DC Direct Control District to accommodate mixed use residential / commercial development.

In regards to the Application to amend the Chinatown Area Redevelopment Plan for Site 1B and the Amendment to the Land Use Designation to this

Please accept this letter of concern in regards to the following matters:

- The request to amend the Floor Area Ratio or FAR from 7.5 to 12.0 is inconsistent with the current FAR for the area and for the CC-X land use designation in the Centre City area;
- The application does not describe the type of structure that could be permitted on this site with a 12.0 FAR and its affect on the surrounding community, business district, residential living and affects on seniors activities;

- The application does not describe the type of structural influences on surrounding buildings especially sun shadow casts, building lighting cast (esp. neon or LED lighting), egress from 2nd Avenue to 3rd Avenue (and vica-versa);
- The applicant does not describe the type of commercial uses intended for the building especially at street level, Plus 15 and Plus 30. The Chinatown community is made up of residents esp. for seniors, cultural and educational facilities for family and children, community space for cultural events (e.g. Chinese New Years, Chinatown Street Festival, Mid-Autummm Festival, night markets, parades, etc.; and
- The applicant does not describe the type of commercial uses that may differ from the current ambience of peace, harmony and tranquility around Sien Lok Park;

Most importantly, for the residents of Calgary, Chinese, Vietnamese, Korean, Japanese, Filipinos, etc., there has not been any public consultations on how their culture, heritage, language, and traditions will be incorporated into the site or building. Respectfully, on behalf of these stakeholders, their voices must be heard.

As City Council receives this Application, we recommend that the following concerns be addressed by the Applicant and The City.

Terry Wong

35 Year Resident of Calgary and a Proud Chinese Canadian Citizen.

THE CITY OF CALGARY
CITY CLERK'S

Dear Sir/Madam,

RE: Policy Amendment and Land Use Amendment to the
Chinatown ARP for 3 Avenue SW and 1 Street SW, Calgary
Bylaws 38P2015 and 179D2015

The Calgary Chinatown Senior Housing Society is a non-profit operator and management of the 104 unit Wah Ying Mansion senior housing project in Chinatown. The recent Notice of the November 9, 2015 Public Hearing before City Council regarding proposed Bylaws 38P2015 and 179D2015 is of great concern to us.

Under the existing Chinatown ARP, the Community of Chinatown has been transformed into a peaceful and orderly community, and is generally regarded as one of the best, if not *the* best Chinatown in Canada. Our senior residents enjoy the benefit of that legacy. Upon hearing the proposed Bylaws 38P2015 and 179D2015, and the changes proposed by the amendments to the Chinatown ARP, many of our residents are furious at such proposed changes. More specifically, they have voiced a very strong objection to allowing hotel, night club, liquor store and high rise office buildings in Chinatown. In fact, many have requested that we provide them with the petition form that they have heard being available elsewhere in Chinatown. We have obtained the forms and virtually all of our residents have signed it to show their objection to the proposed Bylaws 38P2015 and 179D2015. These signed petitions have been handed over to a new coalition acting on this matter to be submitted to the City Clerk.

Therefore, as operator and management of the Wah Ying Mansion, we respectfully request the City of Calgary to reject the proposed Bylaws 38P2015 and 179D2015. We further request that we may be granted an opportunity to make a verbal presentation before City Council on November 9, 2015.

Thank you for your help.

Calgary Chinatown Senior Housing Society

Christopher Yip, CAO

Petition - Regarding proposed Bylaws 38P2015 and 179D2015

To: The City of Calgary City Council

Members of the of the Community of Chinatown and the Chinese community of Calgary have just been made aware of the proposal Bylaws 38P2015 and 179D2015 to be considered by City Council on November 9, 2015. Contrary to the representations made by the applicant landowner for re-designation of land use contrary to the terms and guidelines set forth in the existing Chinatown ARP, the bulk of the community has never been notified, and has never been consulted, despite the fact that such drastic changes called for in the proposed Bylaws will have far reaching and potentially devastating impact on the Community of Chinatown. Therefore, we respectfully request that the proposed Bylaws be disapproved and rejected.

If members of City Council in their wisdom are of the opinion that the Chinatown ARP should be reviewed, then we request that City Council direct the City of Calgary Planning Department to hold open and unbiased public hearing to let members of the community directly affected by the Chinatown ARP an opportunity to present their views, and to come up with changes that are fair and equitable, and applied equally to every land owner throughout the community.

有關城市規劃附例38P2015 及179D2015的請願

致卡城市議會

卡城華埠社區成員剛剛得知市議會將於2015年11月9日審議城市規劃附例草案38P2015及179D2015的申請。與申請地主所聲稱及現行附例規定相反，社區內大多數人對此項對華埠衝擊極大影響深遠的的改變都一無所知，更從未被諮詢過。故此我們懇請市議會否決此項申請。

如以市議會有睿智認為華埠重新發展計劃需要檢討，我們就請市議會指示市府規劃部舉辦公開不偏不倚的公聽會，讓受影響的人士有機會發表意見，從而作出對區內土地所有人一視同仁平等合理的改動。

Petition - Regarding Proposed Bylaws 38P2015 and 179D2015

The proposed amendment of Chinatown Area Redevelopment Plan and Re-designation of land use will have devastating impact on the Community of Chinatown. Bulk of the community has not been consulted. We request City Council to reject the application and direct City Planning Commission to launch broad base consultation before adopt any land use changes in Chinatown.

Thank you very much for your support!

Petition - Regarding Proposed Bylaws 38P2015 and 179D2015

The proposed amendment of Chinatown Area Redevelopment Plan and Re-designation of land use will have devastating impact on the Community of Chinatown. Bulk of the community has not been consulted. We request City Council to reject the application and direct City Planning Commission to launch broad base consultation before adopt any land use changes in Chinatown.

Thank you very much for your support!

Petition - Regarding Proposed Bylaws 38P2015 and 179D2015

The proposed amendment of Chinatown Area Redevelopment Plan and Re-designation of land use will have devastating impact on the Community of Chinatown. Bulk of the community has not been consulted. We request City Council to reject the application and direct City Planning Commission to launch broad base consultation before adopt any land use changes in Chinatown.

Thank you very much for your support!

Petition - Regarding Proposed Bylaws 38P2015 and 179D2015

The proposed amendment of Chinatown Area Redevelopment Plan and Re-designation of land use will have devastating impact on the Community of Chinatown. Bulk of the community has not been consulted. We request City Council to reject the application and direct City Planning Commission to launch broad base consultation before adopt any land use changes in Chinatown.

Thank you very much for your support!

Attn.: City Clerk

Dear Sir/Madam,

RE: Policy Amendment and Land Use Amendment to the
Chinatown ARP for 3 Avenue SW and 1 Street SW, Calgary
Bylaws 38P2015 and 179D2015

RECEIVED
2015 OCT 29 AM 8:22
THE CITY OF CALGARY
CITY CLERKS

The Coalition for the Public Interest of Calgary Chinatown has been formed in response to the policy and land use amendments proposed in Bylaws 38P2015 and 179D2015. We would like to express our view that the proposed Bylaws, ones that have such a significant impact on the community of Chinatown, have been proposed without our knowledge and without consulting the Chinese community at large. Having examined the proposed Bylaws, our primary concerns include the following:

- Lack of consultation with the community on such important matter
- The proposed amendments to the existing ARP are contrary to the original principle and spirit
- Potential to damage to our community
- Unfairness to the other land owners and developers
- Compromise the safe and secure living environment of Chinatown

One of the biggest concerns is the lack of consultation and public input. The proposed Bylaws will have a tremendous impact on the whole of Chinatown; everyone, from residents to business owners, will be affected, and yet the public was never informed nor consulted. Changes of such a scale must be open to discussion, but it is clear that this did not happen.

The proposed Bylaws also run contrary to the principle and spirit of the Chinatown ARP. The Chinatown ARP was adopted 35 years ago to protect the cultural heritage of the Chinese community. We wish to emphasize that Chinatown is a residential community, similar to Eau Claire, Inglewood and Kensington. Chinatown has many senior residents. For the last twenty years, they enjoyed the peaceful and secure environment created by the Chinatown ARP. Allowing high rise office towers, hotels, night clubs and liquor stores would change all that, and could potentially destroy the Chinatown community.

For the landowners of Chinatown, the proposed amendments benefit only the applicant landowner, and no one else. It is unfair. We submit that if any change be made, then it should apply to everyone, and let everyone receives the same benefits.

PTC

Petition - Regarding proposed Bylaws 38P2015 and 179D2015

To: The City of Calgary City Council

Members of the of the Community of Chinatown and the Chinese community of Calgary have just been made aware of the proposal Bylaws 38P2015 and 179D2015 to be considered by City Council on November 9, 2015. Contrary to the representations made by the applicant landowner for re-designation of land use contrary to the terms and guidelines set forth in the existing Chinatown ARP, the bulk of the community has never been notified, and has never been consulted, despite the fact that such drastic changes called for in the proposed Bylaws will have far reaching and potentially devastating impact on the Community of Chinatown. Therefore, we respectfully request that the proposed Bylaws be disapproved and rejected.

If members of City Council in their wisdom are of the opinion that the Chinatown ARP should be reviewed, then we request that City Council direct the City of Calgary Planning Department to hold open and unbiased public hearing to let members of the community directly affected by the Chinatown ARP an opportunity to present their views, and to come up with changes that are fair and equitable, and applied equally to every land owner throughout the community.

Petition - Regarding proposed Bylaws 38P2015 and 179D2015

To: The City of Calgary City Council

Members of the of the Community of Chinatown and the Chinese community of Calgary have just been made aware of the proposal Bylaws 38P2015 and 179D2015 to be considered by City Council on November 9, 2015. Contrary to the representations made by the applicant landowner for re-designation of land use contrary to the terms and guidelines set forth in the existing Chinatown ARP, the bulk of the community has never been notified, and has never been consulted, despite the fact that such drastic changes called for in the proposed Bylaws will have far reaching and potentially devastating impact on the Community of Chinatown. Therefore, we respectfully request that the proposed Bylaws be disapproved and rejected.

If members of City Council in their wisdom are of the opinion that the Chinatown ARP should be reviewed, then we request that City Council direct the City of Calgary Planning Department to hold open and unbiased public hearing to let members of the community directly affected by the Chinatown ARP an opportunity to present their views, and to come up with changes that are fair and equitable, and applied equally to every land owner throughout the community.

Petition - Regarding proposed Bylaws 38P2015 and 179D2015

To: The City of Calgary City Council

Members of the of the Community of Chinatown and the Chinese community of Calgary have just been made aware of the proposal Bylaws 38P2015 and 179D2015 to be considered by City Council on November 9, 2015. Contrary to the representations made by the applicant landowner for re-designation of land use contrary to the terms and guidelines set forth in the existing Chinatown ARP, the bulk of the community has never been notified, and has never been consulted, despite the fact that such drastic changes called for in the proposed Bylaws will have far reaching and potentially devastating impact on the Community of Chinatown. Therefore, we respectfully request that the proposed Bylaws be disapproved and rejected.

If members of City Council in their wisdom are of the opinion that the Chinatown ARP should be reviewed, then we request that City Council direct the City of Calgary Planning Department to hold open and unbiased public hearing to let members of the community directly affected by the Chinatown ARP an opportunity to present their views, and to come up with changes that are fair and equitable, and applied equally to every land owner throughout the community.

Attention: His Worship Mayor Naheed Nenshi and Members of Calgary City Council

Your Worship and Members of Council:

**Re: Public Hearing - Amendments to the Calgary Land Use Bylaw 1P2007
Chinatown – Monday November 9, 2015
(1) Redesignation of lands: DC 70Z84 to DC 179D2015
(2) Amendment to the Chinatown ARP (Bylaw 38P2015)**

We represent CREIT Management L.P., co-owner and property manager of Sun Life Plaza (144 – 4 Ave SW / 140 – 4 Ave SW / 112 – 4 Ave SW). Sun Life Plaza consists of three – 28 storey office towers connected at the ground and +15 levels by a large covered atrium with extensive public areas and a +15 connection to the James Short parkade site to the south. Sun Life Plaza continues to evolve and CREIT is currently planning substantial renovations to these public areas within the project.

CREIT Management supports the expectation that "memorable and distinctive" architecture be a hallmark of redevelopment in the Centre City, including its identified neighbourhoods.¹ The proposed land use amendment is for a substantial parcel of land within the 100 block of 3rd Avenue SW, lying immediately north of Sun Life Plaza.

At Calgary Planning Commission (CPC) on September 10, 2015, the bylaw amendment was recommended with the following comment made by the City's administration:

"... the DC Direct Control District contains adequate safeguards to protect the amenities of the Chinatown community and the Sien Lok Park in particular and would therefore be compatible with the established pattern of development."

¹ Centre City Plan (2007). Section 7.8 "Architecture", at p. 141.

While the proposed DC bylaw rules appear to support urban design objectives such as adequate light penetration between towers, activation of the street level, sunlight protection for Sien Lok Park and the riverbank to the north, and bonusing provisions address publicly accessible private open space, public art and potential contributions to the Chinatown Improvement Fund, the ability of the development on this site to respond to the Centre City Plan's policies regarding built form, architectural quality and presence (i.e. "memorable and distinctive" design) is not demonstrated in the application, nor sufficiently addressed or incented in the DC rules.

The land use amendment will increase the maximum density for the site from 7.5 FAR to 12.0 FAR (commercial increasing from 4.0 FAR to 8.0 FAR), with a "bonus incentive to reach (the maximum) through a financial contribution to the Chinatown Improvement Fund". The proposed new DC land use is adapted from the CC-X district (mixed use) "to encourage residential development in this location" but allowing also for commercial / mixed-uses.

The landowner (El Condor Lands Inc.) and applicant have engaged the Sien Lok Society, to the north of the subject site, and other societies as part of the Chinatown Community Association, but have not responded to nor engaged CREIT, as the immediate southerly neighbour and stakeholder.

CREIT wishes to be supportive of the application as a positive change in the community, but is concerned that there remain significant unknowns to the application. Without the application being tied to plans in the DC or without a concurrent development permit application, there is little evidence of what the future will offer. In the absence of plans, the site's urban design qualities and the impact on neighbouring sites are unknown (other than sun shadowing). It is a reasonable expectation that CREIT and the other immediate neighbours understand the nature and quality of the proposed development that will benefit from the 4.5 FAR increase in site density. The subject site is within the Centre City Plan (2007), and there is a strong policy statement in this Plan that there be "appropriate transition edges between residential developments in Chinatown and the Downtown". The CCP further states that "new buildings shall provide an appropriateness, quality and durability of details and finishes" with "architecture that is both memorable and distinctive".² Without seeing a design, it is not possible to determine if the built form and architectural design expectations of the CCP will be achieved. It is a reasonable expectation that this "reveal" occur now - at the same time as a 4.5 FAR increase in density is sought.

Should City Council support the proposed land use amendment, CREIT asks that Council table 2nd and 3rd readings, following the public hearing, to allow the applicant to submit a development permit application detailing the landowner's development expectations. Council has, particularly in the last several years, used this process to provide additional certainty over the quality of design that might be expected where significant increases in site density are requested.

² Centre City Plan (2007). Section 7.8 "Architecture" at pages 140 & 141.

The Sien Lok Society of Calgary, in their letter of June 6, 2014 (Appendix IV to the CPC report), were supportive of any redevelopment that "greatly contributes to the area" and were looking to a "revitalized Chinatown ... being a glowing centrepiece between Eau Claire and the East Village". The applicant had suggested that this application will "greatly enhance the character of Chinatown." CREIT supports these ambitions and, in CREIT's view, these ambitions will be realized through a concurrent DP application.

We will be in attendance at Council on November 9th to speak to this item.

Sincerely,

Christopher Davis Law

Dear Sirs,

Submission for Public Hearing on November 9, 2015 Regarding
Land Use Redesignation Chinatown BYLAW 179D2015 and
Amendments to the Chinatown Area Redevelopment Plan BYLAW 38P2015

We are a charitable organization established in Chinatown and have been serving seniors and new immigrants citywide since 1985. We provide a great variety of services and programs, from social activities and community support to health services. We currently have more than 2,300 active members.

We are writing to express our grave concerns about the captioned land use redesignation and amendments to Chinatown A.R.P. We only learned about the proposed changes from the public notice posted on the newspaper and have not been consulted in advance.

The reasons of our concern are:

1. The alignment study to connect the Green Line North and South is currently underway, tabled options includes use of existing Centre Street bridge and construction of new Centre Street bridge alongside. The proposed increase of density and changes of discretionary uses may be premature since the route is not yet finalized. We expect the Applicant and City Planning to work together to develop more detail plans within the process of the Green Line before any change of land use designation within this district.
2. The parcel of land involved situates in a populated residential area and is in close proximity with senior apartments, assisted living facility and affordable housing. A high percentage of the residents are seniors. The proposed use of the Centre City Mixed Use District (CC-X) as the base district for development would bring in some undesirable activities related to certain business, such as hotel and

E-mail: cceca@cceca.ca • Web: www.cceca.ca

- nightclub, and cause disturbance to the residents. The peace and safety of the community is paramount and must be taken into consideration.
3. The unique cultural heritage of Chinatown is broadly recognized. It is a popular tourist attraction. Further increase the commercial density, such as increase of office area and abolish of building height limit, would ruin Chinatown's unique character.
 4. Sun light and warm are critical for the aged residents living at the south side of 2nd Avenue SW. The sun light protection area stated in item 15 of the application only cover the area between Centre Street NE and 1st Street SE, which is more than a block away from the development. The public and park area between Centre Street SW and 1st Street SW should not be left under the shadow of the development.
 5. The number of affordable housing units in Chinatown is diminishing. In order to encourage the developer to provide affordable housing to the community, the Floor Area Ration bonus incentive stated in Schedule C of the application should include bonus incentive for Residential Gross Floor Area with the provision of non-profit government-assisted (Federal, Provincial or Municipal) housing as an option, just like the existing Bylaw 70Z84, item 6(d).

In view of above, we plead the City Council to defer any decision on policy amendment involve Chinatown until the completion of a broad based consultation with stakeholders within the Chinatown ARP coverage.

We sincerely hope our input could be included in the presentations to City Council.

Yours truly,

Desmond Lai
President
