# Applicant Outreach Summary

## **Outreach Strategy**

Our firm put together a multi-page flyer outlining the developer's intentions for this particular lot to distribute to potential stake holders and affected parties. The flyer included items such as bylaws and examples showing the possible type of construction that can occur under R-CG. The flyer was sent to the community association by email and flyers were dropped off to homes within 3-4 doors in all directions including across the lane. This included 716, 712 708, 804, 808, 812 40th Ave NW. Also 55, 59, 63, 69, 73, 77 Hendon Drive NW Flyers were delivered early March 2021and and sent to the community association as well.

## Stakeholders

After delivery of the flyers, which included all our contact info, we heard no feedback, calls or emails to our flyer. Generally with no feedback, the community is on board most of the time.

## What did you hear?

Since we had no feedback we assume the project is good to go.

## How did stakeholder input influence decisions?

Our decision is clearly to move ahead with the rezoning application. We will outreach to the community once again at DP stage after rezoning. The area is under redevelopment in many ways and this type of development falls under the goals of the MDP and is a good site for density.

## How did you close the loop with stakeholders?

The loop is still open as this is just the rezoning phase. Once a DP is ready to be applied for we may have some response from the community at that time.

## Flyer sent to adjacent homeowners

TRICOR DESIGN GROUP INC. #201, 4216 12 St NE #201, Calgary, AB T2E 6K9

#### Hello homeowners:

We are writing this letter in conjunction with a land use re-designation application that has been applied for and is going before CPC and council at 720 40th Ave NW. The application will be to change the current designation of R-C2 to R-CG. This letter is for informational purposes only and does not reflect what the final design may look like. We are reaching out to immediate surrounding homes that may be affected by this rezoning.

One of the major goals of council is densification inside City limits in developed areas to help limit the spread of the City. Diversified housing types is vital to City growth and sustainability through the municipal development plan (MDP), which began in 2005. The following link may be helpful in understanding the goal of council and the MDP.

#### https://www.calgary.ca/pda/pd/municipal-development-plan/municipal-development-plan-mdp.html

The R-CG district that is being proposed aligns with the MDP and keep in mind its intent is not necessarily for every single inner- city lot in the City of Calgary. For R-CG to work on interior lots, it usually requires a minimum of two lots together to work. But for corner lots its ideal because the lot has two street faces.

In the case of this particular lot, not only is it on a corner, but it is larger in nature than most corner lots which will allow more green space and unique design possibilities.

The next part of this letter focuses on the R-CG district itself. You can find the entire Part 5 online at <u>http://lub.calgary.ca/</u> but here we are outlining some of the critical parts of R-CG that you may or may not know.

When buildings of R-CG nature are placed on corner lots, its important to note the tight restrictions and rules for townhouse dwellings on a corner lot.

We have attached excerpts from Part 5 from the current 1P2007 Land Use Bylaw for your reference to show all the requirements for this type of dwelling.

# PART 5: LOW DENSITY RESIDENTIAL DISTRICTS

## Division 11: Residential – Grade-Oriented Infill (R-CG) (R-CGex) District

## Purpose

**525** (1) The Residential – Grade-Oriented Infill (R-CG) District:

- (a) accommodates existing residential <u>development;</u>
- (b) accommodates grade-oriented development in the form of <u>Rowhouse</u> <u>Buildings</u>, <u>Duplex Dwellings</u>, <u>Semi-detached Dwellings</u> and <u>Cottage Housing</u> <u>Clusters</u>;
- (c) accommodates <u>Secondary Suites</u> and <u>Backyard Suites</u> with new and existing residential <u>development</u>;
- (d) provides flexible <u>parcel</u> dimensions and <u>building setbacks</u> that facilitate integration of a diversity of grade-oriented housing over time; and
- (e) accommodates site and *building* design that is adaptable to the functional requirements of evolving household needs.

#### Permitted Uses

- 526 (1) The following <u>uses</u> are <u>permitted uses</u> in the Residential Grade-Oriented Infill District :
  - (g) Secondary Suite
  - (2) A <u>Rowhouse Building</u> is a <u>permitted use</u> in the Residential Grade-Oriented Infill District where a <u>Rowhouse Building</u> complies with all the rules in the district for that <u>use</u> and where a <u>Rowhouse Building</u> complies with the rules of <u>section 347.3</u>.

#### **Discretionary Uses**

527 (1) A <u>Rowhouse Building</u> is a <u>discretionary use</u> in the Residential – Grade-Oriented Infill District where a <u>Rowhouse Building</u> does not comply with all the rules in the district for that <u>use</u> or where a <u>Rowhouse Building</u> does not comply with the rules of section 347.3.

#### Parcel Coverage

- 534 (2) Unless otherwise referenced in subsection (3), the maximum cumulative <u>building</u> <u>coverage</u> over all the <u>parcels</u> subject to a single <u>development permit</u> containing a <u>Contextual Semi-Detached Dwelling</u>, <u>Cottage Housing Cluster</u>, <u>Rowhouse</u> <u>Building</u>, <u>Semi-Detached Dwelling</u> or <u>Single Detached Dwelling</u> is:
  - (a) 45.0 per cent of the area of the <u>parcels</u> subject to a single <u>development permit</u> for a <u>development</u> with a <u>density</u> of less than 40 <u>units</u> per hectare;
  - (b) 50.0 per cent of the area of the <u>parcels</u> subject to a single <u>development permit</u> for a <u>development</u> with a <u>density</u> 40 <u>units</u> per hectare or greater and less than 50 <u>units</u> per hectare;
  - (c) 55.0 per cent of the area of the <u>parcels</u> subject to a single <u>development permit</u> for a <u>development</u> with a <u>density</u> of 50 <u>units</u> per hectare or greater and less than 60 <u>units</u> per hectare; or
  - (d) 60.0 per cent of the area of the <u>parcels</u> subject to a single <u>development permit</u> for a <u>development</u> with a <u>density</u> of 60 <u>units</u> per hectare or greater.
  - (3) The maximum *parcel coverage* referenced in subsections (1) and (2), must be reduced by:
    - (a) <u>21.0 square metres</u> where one <u>motor vehicle parking stall</u> is required on a <u>parcel</u> that is not located in a <u>private garage</u>; and
    - (b) <u>19.0 square metres</u> for each required <u>motor vehicle parking stall</u> that is not located in a <u>private garage</u> where more than one <u>motor vehicle parking stall</u> is required on a <u>parcel</u>.

#### **Building Depth**

- 535 (2) For a <u>Rowhouse Building</u> located on a <u>corner parcel</u> there is no maximum <u>building</u> <u>depth</u> where the <u>building setback</u> from the <u>side property line</u> shared with another <u>parcel</u> is a minimum of 3.0 metres for any portion of the <u>Rowhouse</u> <u>Building</u> located between the <u>rear property line</u> and:
  - (a) 50.0 per cent *parcel depth*; or
  - (b) the *building depth* of the *main residential building* on the adjoining *parcel*;

whichever is closer to the *rear property line*.

- (3) Where two or more <u>main residential buildings</u> are located on a <u>corner parcel</u>, there is no maximum <u>building depth</u> for a <u>Duplex Dwelling</u>, <u>Rowhouse Building</u>, <u>Semi-detached</u> <u>Dwelling</u> or <u>Single Detached Dwelling</u> where:
  - (a) one <u>main residential building</u> is wholly located between the <u>front property</u> <u>line</u> and 60.0 per cent <u>parcel depth</u>; and
  - (b) the <u>building setback</u> is a minimum of 3.0 metres from the <u>side property line</u> shared with another <u>parcel</u> for any portion of a <u>main residential building</u> located between the <u>rear property line</u> and:
    - (i) 50.0 per cent *parcel depth*; or
    - (ii) the *building depth* of the *main residential building* on the adjoining *parcel*;

whichever is closer to the *rear property line*.

#### Building Setback Areas

**536** (1) The minimum depth of all <u>setback areas</u> must be equal to the minimum <u>building</u> <u>setback</u> required in sections 537, 538, 539 and 540.

#### Building Setback from Front Property Line

- **537** (2) On a <u>corner parcel</u>, the minimum <u>building setback</u> from a <u>front property line</u> may be reduced to:
  - the <u>contextual front setback</u> at the <u>side property line</u> shared with another <u>parcel</u> to a maximum of <u>6.0 metres</u>; and
  - (b) decreases in equal proportion with the increase in the distance from the shared <u>side</u> <u>property line</u>, to a minimum of <u>3.0 metres</u>.
  - (b) <u>3.0 metres</u> on one side of the *parcel* when no provision is made for a *private garage* on the front or side of a *building*.
  - (5) For a <u>Rowhouse Building</u>, <u>Contextual Semi-detached Dwelling</u>, <u>Semi-detached</u> <u>Dwelling</u> or <u>Single Detached Dwelling</u> the minimum <u>building setback</u> from a <u>side</u> <u>property line</u> may be reduced to zero metres where:
    - (a) the <u>main residential building</u> on the adjacent <u>parcel</u> has a setback of 0.1 metres or less at the shared <u>side property line</u> for any portion of the <u>building</u> that is recessed <u>0.6 metres</u> or greater from the front façade or the rear façade of the <u>building</u> and is setback less than <u>1.2 metres</u> from the <u>side property line</u>;
    - (b) the <u>building setback</u> is not greater than <u>0.1 metres</u> from the <u>side property line</u> for any portion of a <u>building</u> that is recessed <u>0.6 metres</u> or greater from the front façade or the rear façade of the <u>building</u> and is setback less than <u>1.2 metres</u> from the <u>side</u> <u>property line</u>;
  - (7) For a <u>corner parcel</u>, the minimum <u>building setback</u> from a <u>side property line</u> shared with a <u>street</u> is <u>0.6 metres</u>.
  - (11) On a <u>laned parcel</u>, the minimum <u>building setback</u> for a <u>private garage</u> attached to a <u>main residential building</u> that does not share a <u>side</u> or <u>rear property line</u> with

a <u>street</u> may be reduced to zero metres where the wall of the portion of the <u>building</u> that contains the <u>private garage</u> is constructed of maintenance-free materials and there is no overhang of eaves onto an <u>adjacent parcel</u>.

#### Building Setback from Rear Property Line

- 540 (2) For a <u>Rowhouse Building</u> on a <u>corner parcel</u>, the minimum <u>building setback</u> from a <u>rear</u> <u>property line</u> is <u>1.5 metres</u> where the <u>building setback</u> from the <u>side property line</u> shared with another <u>parcel</u> is a minimum of <u>3.0 metres</u> for any portion of the <u>Rowhouse</u> <u>Building</u> located between the <u>rear property line</u> and:
  - (a) 50.0 per cent *parcel depth*;
  - (b) or the *building depth* of the *main residential building* on the adjoining *parcel*;

whichever is closer to the *rear property line*.

#### **Building Height**

- 541 (1) Unless otherwise referenced in subsections (2) and (3), for a <u>Contextual Semi-detached</u> <u>Dwelling</u>, <u>Duplex Dwelling</u>, <u>Rowhouse Building</u>, <u>Semi-detached Dwelling</u> or <u>Single</u> <u>Detached Dwelling</u> the maximum <u>building height</u> is <u>11.0 metres</u> measured from <u>grade</u>.
  - (2) Where a <u>building setback</u> is required from a <u>property line</u> shared with another <u>parcel</u> designated with a <u>low density residential district</u> or the M-CG District, the maximum <u>building height</u>.
    - (a) is the greater of:
      - the highest geodetic elevation of a <u>main residential building</u> on the adjoining <u>parcel</u>; or
      - (ii) <u>7.0 metres</u> from *grade*;

measured at the shared property line; and

- (b) increases at a 45 degree angle to a maximum of <u>11.0 metres</u> measured from grade.
- (3) The maximum area of a horizontal cross section through a <u>building</u> at <u>9.5</u> <u>metres</u> above <u>average grade</u> must not be greater than 75.0 per cent of the maximum area of a horizontal cross section through the <u>building</u> between <u>average grade</u> and <u>8.6 metres</u>.

#### **Outdoor Private Amenity Space**

- 542 For a <u>Contextual Semi-detached Dwelling</u>, <u>Duplex Dwelling</u>, <u>Rowhouse Building</u>, <u>Semi-detached</u> <u>Dwelling</u> and a <u>Single Detached Dwelling</u>, each <u>unit</u> must have direct access to <u>private amenity</u> <u>space</u> that:
  - (a) is provided outdoors;
  - (b) has a minimum total area of 20.0 square metres; and
  - (c) may be divided over a maximum of two *amenity spaces* where:
    - (i) one <u>amenity space</u> has no dimension less than <u>3.0 metres</u>; and

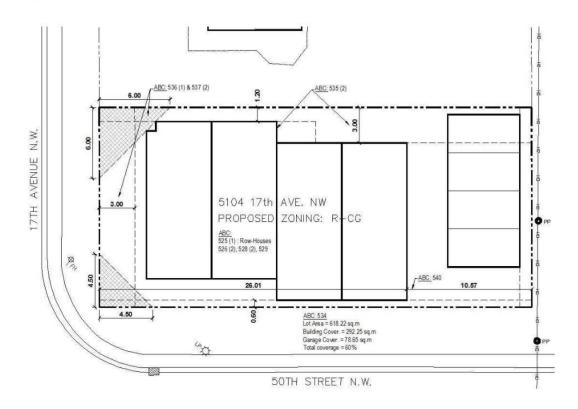

- the second <u>amenity space</u> has a minimum contiguous area of <u>7.5 square</u> metres with no dimension less than <u>1.5 metres</u>.
- (iii) the privacy wall is a minimum of <u>2.0 metres</u> in height and a maximum of <u>3.0</u> <u>metres</u> in height; and
- (c) must not have a <u>balcony</u> on the rear façade with a height greater than <u>6.0 metres</u>, when measured vertically at any point from <u>grade</u> to the platform of the <u>balcony</u>.

#### Motor Vehicle Parking Stalls

- 546 (1) The minimum number of *motor vehicle parking stalls* for a <u>Contextual Semi-detached</u> <u>Dwelling</u> is 1.0 stall per <u>Dwelling Unit</u>.
  - (2) The minimum number of *motor vehicle parking stalls* for a <u>Secondary Suite</u> is reduced to 0.0 where
    - (a) the floor area of a <u>Secondary Suite</u> is <u>45.0 square metres</u> or less;
    - (b) the <u>parcel</u> is located within <u>600.0 metres</u> of an existing or approved capital funded <u>LRT platform</u> or within <u>150.0 metres</u> of <u>frequent bus service</u>; and
    - (c) space is provided in a <u>building</u> for the occupant of the <u>Secondary Suite</u> for storage of mobility alternatives such as bicycles or strollers that:
      - (i) is accessed directly from the exterior; and
      - has an area of <u>2.5 square metres</u> or more for every <u>Secondary Suite</u> that is not provided with a <u>motor vehicle parking stall</u>.
  - (3) <u>Parcel coverage</u> excludes the <u>building coverage</u> area required by subsection (2)(c)

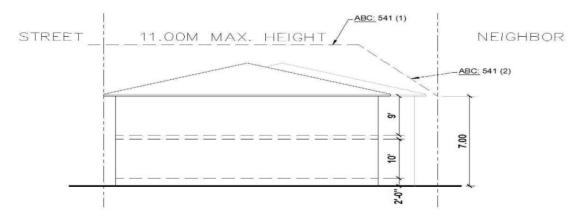

As you can see from the above bylaws, R-CG is one of the most restrictive bylaws protecting adjacent lots while still adding diversity and housing stock to a community

If you would like to speak to our firm who is representing the devloper about any of the above information, Feel free to contact either Mike or Ahmed at Tricor Design Group. 403-203-1970

Next, on the following diagram we demonstrate a typical R-CG layout on a corner lot showing where the above bylaws are applicable and noted on the drawings.

On the following diagram we demonstrate a typical R-CG layout on a corner lot showing heights that are very similar to semi detached dwellings and single family homes and not tall buildings that dominate the street.

Examples of other R-CG projects on corner lots we have produced
