

Applicant Outreach Summary

2021 May 21

Project Name: Cornerstone Phase 11 Land Use Redesignation and Outline Plan Amendment

Did you conduct community outreach on your application? **No**

If no, please provide your rationale for why you did not conduct outreach.

The proposed Land Use Redesignation (LUR) and Outline Plan (OP) Amendment application remains consistent with the anticipated built forms, residential densities, and overall vision of the approved Cornerstone Outline Plan, while allowing for more adaptive and flexible implementation in future stages. Considering the outcomes of the LUR and OP Amendment will be highly similar to the approved plan for this area, we have chosen not to undertake additional public outreach for this application beyond the standard large format notice and application notification conducted by Administration for the surrounding area. Should any comments be received by Administration during the notification period, we (the applicant) are more than willing to support Administration in their responses, if necessary.
