

**Calgary**  **Community Outreach on Planning & Development  
Applicant-led Outreach Summary**

**Project name:** Child Care

If no, please provide your rationale for why you did not conduct outreach.

Provide an overview of your outreach strategy, summary of tactics and techniques you undertook (Include dates, locations, # of participants and any other relevant details)

I spoke to the neighbours within a one block radius and applied a Google map pin to the search engine for the daycare location. A total of twenty families contacted me and inquired as what I was offering for Child Care. The majority of the twenty families were from within my area within a ten block radius. The overview of this strategy addresses the positive impact and to become aware of any concerns or negative reactions of having the child care at this location.

Who did you connect with in your outreach program? List all stakeholder groups you connected with. (Please do not include individual names)

All were indifferent or had no concerns or expressed glee for a daycare being established at my location. Only my direct adjacent neighbour seems to be perturbed by my arrival. I will address all concerns they may have and find a common ground for both parties.

 	<b>Community Outreach for Planning &amp; Development Applicant-led Outreach Summary</b>
<b>What did you hear?</b>	
Provide a summary of main issues and ideas that were raised by participants in your outreach.	
My adjacent neighbour does not want a sign on my front lawn for advertising as they said it will decrease their property value. Main issues for most of the families is whether I can accomodate subsidies and if my hours will allow late arrival of the parents for their children without any late fees.	
<b>How did stakeholder input influence decisions?</b>	
Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.	
I am considering placing the sign when approved by the City of Calagry to be placed on my residence exterior wall to avoid any lawn placement or to attached respectable signage and at a minimum upon the mandated fencing to be erected around the circumference of the front lawn.	
I may also consider offering later pick-up hours to those who work late as to avoid them rushing and possibly cause greater risk to themselves or others in their haste to retrieve their children on time.	
<b>How did you close the loop with stakeholders?</b>	
Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)
