

Municipal Emergency Plan Functional and Incident-Specific Plans

The Municipal Emergency Plan details The City of Calgary's concept of operations, authorities, and responsibilities related to the coordination of emergency preparedness, response, and recovery activities within the municipality. It includes annexes that identify common all-hazards emergency management functions and unique procedures for specific incident types. Calgary Emergency Management Agency relies on the 60+ members to develop, resource, and implement these plans.

Functional Plans

Annex	Description	Responsible Agency Member
Debris Management	Plan for debris removal resulting from large-scale emergency impacting multiple communities and varied types of infrastructure.	Waste & Recycling Services
