## **DESIGNATION OF THE ANDERSON RESIDENCE AS A MUNICIPAL HISTORIC RESOURCE**

### **INVESTIGATION: ALTERNATIVES AND ANALYSIS**

Designation of the Anderson Residence legally protects the property and ensures that any future changes and conservation work aligns with best practices in heritage conservation. The proposed bylaw is attached (Attachment 1). The bylaw identifies the elements of the property that contribute to its heritage value and that must be treated appropriately in any future changes or conservation work.

### **Stakeholder Engagement, Research and Communication**

The owner of the Anderson Residence is in agreement with the proposed bylaw.

### **Strategic Alignment**

The City of Calgary *Municipal Development Plan* supports the conservation and protection of Calgary's historic resources. The plan identifies historic preservation as part of good city building and community identity, and encourages property owners to conserve Calgary's historic resources.

The City of Calgary *2020 Sustainability Direction* sets forth an objective for Calgary to become a "diverse and socially inclusive city that respects its heritage and the arts," as well as a strategy to "support the preservation of Calgary's historic resources".

The City's *Calgary Heritage Strategy* (2008) recommends that identified historic resources should be protected by designation bylaws, when possible, to ensure their preservation. This protection prevents demolition, provides appropriate management of physical interventions and is critical to ensuring effective management of historic resources.

### **Social, Environmental, Economic (External)**

#### **Social**

Historic resources connect us to our past, our future, and to each other. They provide places of learning and places of understanding for all Canadians. Historic resources are integral to the identity of our community and help to strengthen its distinctiveness. Historic resources add to the beauty, character and visual interest of our urban environment which contributes to the city's liveability and are sources of community pride.

#### **Environmental**

The preservation of historic places capitalizes on the energy investment in the original structures, preventing unnecessary resource use and reducing the pressure on landfill sites from demolition.

#### **Economic (External)**

The property adds character and visual interest to the streetscape which makes economic investment in the area an attractive prospect. Designation will ensure these attributes are protected and the resulting security will promote high-quality investment. Also tourists and residents are attracted to areas with historic resources.
