

Background

Context

Protecting heritage sites through legal designation is an internationally recognized best practice in planning and is supported by City of Calgary policy. The three (3) proposed Municipal Historic Resource Designations in this report support the Calgary Heritage Strategy mandate to 'Identify', 'Protect' and 'Manage' sites of heritage significance. Information on overall progress towards Calgary's long-term heritage conservation goals can be found online at www.calgary.ca/heritage (see 'Progress Snapshot').

In 2013 Parks completed a culture landscape management plan (the Plan) to aid in maintaining and conserving historic resources managed by Parks. The Plan identifies the value of designating cultural landscapes as Municipal Historic Resources.

In 2011, City Council endorsed the "City-owned Historic Resource Management Strategy" to establish The City "as a role model for the creative use and adaptive re-use of City-owned historic buildings and excellence in maintenance and restoration".
