HIGHLIGHTS

- This application seeks to redesignate the subject site to allow for rowhouses in addition to the building types already allowed in the district (e.g. single detached, semi-detached, duplex dwellings, and secondary suites).
- The proposal represents an appropriate density increase of a residential site, allows for development that may be compatible with the character of the existing neighbourhood, and is in keeping with the applicable policies of the *Municipal Development Plan* (MDP).
- What does this mean to Calgarians? The proposed R-CG District would allow for greater housing choice within the community and more efficient use of existing infrastructure and nearby amenities.
- Why does this matter? The proposed R-CG District would allow for greater housing options that may better accommodate the evolving needs of different age groups, lifestyles and demographics.
- An amendment to the *Killarney/Glengarry Area Redevelopment Plan* (ARP) is required to accommodate the proposal.
- A development permit has not been submitted at this time.
- There is no previous Council direction related to this proposal.

DISCUSSION

This application, located in the southwest community of Killarney/Glengarry, was submitted by Horizon Land Surveys on behalf of the landowner, Kulwinder Rajasansi, on 2021 October 14. A development permit has not been submitted at this time; however, redevelopment is planned in the future as per the Applicant Submission (Attachment 2).

An amendment to Map 2 of the *Killarney/Glengarry ARP* is required to accommodate the proposed R-CG District (Attachment 4).

A detailed planning evaluation of the application, including location maps and site context, is provided in Attachment 1, Background and Planning Evaluation.

STAKEHOLDER ENGAGEMENT AND COMMUNICATION (EXTERNAL)

- Outreach was undertaken by the Applicant
- Public/Stakeholders were informed by Administration

Applicant-Led Outreach

Prior to the submission of the proposed land use amendment, the applicant used the [Applicant Outreach Toolkit](#) to assess which level of outreach with public stakeholders and the community association was appropriate. In response, the applicant conducted a post card drop and door-knocking campaign to houses within a 90 metres radius of the subject site, and initiated communication with the Killarney-Glengarry Community Association and the Ward Councillor's office. The Applicant Outreach Summary can be found in Attachment 3.

City-Led Outreach

In keeping with Administration's practices, this application was circulated to stakeholders, notice posted on-site, published [online](#), and notification letters were sent to adjacent landowners.

Administration received five letters of opposition and one letter of support from the public. The letters of opposition included the following areas of concern:

- increased height;
- increased traffic;
- parking concerns;
- reduced sunlight and privacy for the neighbouring lot; and
- lack of development plans/renderings.

The Killarney-Glengarry Community Association provided a response of neither support nor opposition to this application and encouraged the applicant to engage with their neighbours and the surrounding properties on this application as well as any potential future development permit application.

Administration considered the relevant planning issues specific to the application and has determined the proposal to be appropriate. The building, site design, and on-site parking will be reviewed and determined at the development permit stage.

Following Calgary Planning Commission, notifications for Public Hearing of Council will be posted on-site and mailed to adjacent landowners. In addition, Commission's recommendation and the date of the Public Hearing will be advertised.

IMPLICATIONS

Social

The recommended land use allows for a wider range of housing types than the existing R-C2 District. As such, the proposed change may better accommodate the housing needs of different age groups, lifestyles, and demographics.

Environmental

The applicant has indicated in their Climate Resilience Inventory form that they plan to pursue specific measures as part of a future development permit which will align with The City's [Climate Resilience Strategy](#) (programs: Renewable and low-carbon energy systems and Electric and Low-Emissions Vehicles). Further opportunities to align future development on this site with applicable climate resilience strategies will be explored and encouraged at subsequent development approval stages.

Economic

The ability to develop up to four rowhouse units with the option to include secondary or backyard suites would allow for an efficient use of land, existing infrastructure, and services.

Service and Financial Implications

No anticipated financial impact.

RISK

There are no known risks associated with this application.
