Dear Mr. Pearce:

Re: Proposed Low Density Mixed Housing District

Stephen, on behalf of UDI Calgary and its members, we would like to express our general support for your work on the proposed new Low Density Mixed Housing District, in particular, the level of engagement and the opportunity for a two-way dialogue on factors that might contribute to the success of such a district, from the perspective of the Development Industry.

Certainly, we are looking forward to continuing to work with you to further refine and polish the district criteria given that, at the end of the day, its ultimate acceptance, endorsement and success will rest with the details.

Again, we thank you for your open engagement and trust your experience has reflected enthusiastic cooperation and collaboration from our industry.

Yours truly,
UDI – Calgary

Director of Policy & Government Relations
