## Community Outreach on Planning & Development Applicant-led Outreach Summary

### What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

The main concern we received was regarding parking in the area.

### How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

The concerns that we received did not influence decisions because the proposed development will have a parking garage to accommodate parking for the four units. The community already has similar developments to the one being purposed in close proximity.

### How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

Since the concerns are easily avoided because the property will have its own parking garage we are moving forward with the rezoning application.
