<b>Commissioner Tiedemann</b>	<p>Reasons for Approval</p> <ul style="list-style-type: none"><li>• This land use re-designation will allow for the operation of a facility committed to the clean-up and re-use of minimally impacted fill and aggregate materials in the city. This operation will have a positive impact with relation to the city's climate and environmental goals by reducing the amount of waste material needlessly being diverted to landfills. It will allow for the recycling/re-sue of material that will have otherwise been landfilled and it will also reduce trucking distances related to the same.</li></ul>
