**Deferral request for BiodiverCity Advisory Committee revised Terms of Reference due Q1 2022, to return May 27, 2022**

---

In November 2021, Council directed Administration to work with the BiodiverCity Advisory Committee and the Anti-Racism Action Committee to revise each committee's respective terms of reference to better reflect the criticality of the work as well as each committee's ability to better interface with Council and Administration, and report back through the Community Development Committee in the first quarter of 2022. The BiodiverCity Advisory Committee has been working on revising their current Terms of Reference but requires additional time to complete that work and intends to report to the Community Development Committee on May 27, 2022 with their revisions.
