Commissioner Tiedemann	<p>Reasons for Approval</p> <ul style="list-style-type: none">Given the stagnation of development in the area, I support this application and hope it will spur development in an area that has languished for years. If there was truly any desire to develop the vacant parcels, individual land use amendments could have been submitted for these parcels in the last 15 years but we have not seen those applications. I do worry that simply adding a few additional uses will not be sufficient to kick start development in this area. I believe that council should put additional supporting policy in place to truly help foster development on these lands that have languished for the past ~15 years.
