**Subject:** 148 Hanover Road SW secondary suite application

I live in Ward 11 and would like to express an opinion about the above secondary suite application. I am not in favor of secondary suites in our ward and would like to see that the application is denied. Because we live on a street that is not far from the LRT near a bus line that is minutes from an LRT station we have very high density street. Illegal suites already exist in our area which have already added to traffic and street density as well but being sanctioned by the city will only make it worse.
