<b>Commissioner Tiedemann</b>	<p>Reasons for Approval</p> <ul style="list-style-type: none"><li>• While I fully support the DC (based on M-CG) land use designation on this site in general, I struggled with this application a bit more than the previous one. I feel that given the site area, this site could have benefitted from a higher density stock district (i.e. M-C2) that could have allowed for a more cohesive building design. It is however, the owner/applicant's prerogative to apply for the land use of their choosing and am happy to support the application as presented.</li></ul>
